Racialisation Of British Policing:

The Racialisation of British Policing Simon Holdaway, 1996-03-06 Drawing extensively on his own and others research Simon Holdaway argues that to understand manifestations of race within and outside the police we need to analyse processes of racialisation previously ignored by the untheoretical emphases of much of criminology Importantly he analyses how race is manifested within the organisational and cultural contexts of British policing Laced with quotations from research contemporary policy documents and other sources this is a graphic and compelling account of racialised relations within police work which will appeal to students on a very wide range of social science degrees from sociology to police studies

Policing in Crisis? Tracey Davanna, Federica Rossi, 2025-09-09 Are the recent scandals around UK policing the product of a temporary crisis or rather inscribed deep in the police institution This timely book presents a critical perspective on key areas of current controversy policing and communities policing and protest and policing and gender Bringing together researchers and community activists the book gives voice to the lived experiences of those more likely to be subjected to police misconduct and discrimination It challenges current thinking on police from both abolitionist and reformist perspectives offering a fresh take on recent crises and attempts at reform

[Policing Citizens](#) P.A.J. Waddington, 2002-11-01 This analysis of policing throughout the modern world demonstrates how many of the contentious issues surrounding the police in recent years from paramilitarism to community policing have their origins in the fundamentals of the police role The author argues that this results from a fundamental tension within this role In liberal democratic societies police are custodians of the state s monopoly of legitimate force yet they also wield authority over citizens who have their own set of rights

Police Culture in a Changing World Bethan Loftus, 2012-01-19 This fascinating new title offers an ethnographical investigation of contemporary police culture based on extensive field work across a range of ranks and units in the UK s police force By drawing on over 600 hours of direct observation of operational policing in urban and rural areas and interviews with over 60 officers the author assesses what impact three decades of social economic and political change have had on police culture She offers new understandings of the policing of ethnicity gender and sexuality and the ways in which reform initiatives are accommodated and resisted within the police The author also explores the attempts of one force to effect cultural change both to improve the working conditions of staff and to deliver a more effective and equitable service to all groups in society Beginning with a review of the literature on police culture from 30 years ago the author goes on to outline the new social economic and political field of contemporary British policing Taking this as a starting point the remaining chapters present the main findings of the empirical research in what is a truly comprehensive analysis of present day policing culture

[Policing and the Condition of England](#) Ian Loader, Aogán Mulcahy, 2003 Citizens it is said have lost faith in the English police Opinion polls

repeatedly show that trust in and respect for the police have declined precipitously from the historically high levels achieved during the golden age of the 1950s. Successive decades of rising crime, political violence and urban disorder, miscarriages of justice and declining effectiveness have left the police in what seems like a permanent crisis of legitimation. A once revered national institution has become thoroughly profane. In this major new work on the relationship between English policing and culture, Ian Loader and Aogán Mulcahy reassess and revise this received sociological and popular wisdom on the fate that has befallen the English police. Paying close attention to the symbolic and cultural significance of the police, Loader and Mulcahy document the mix of profane and sacred sensibilities that struggle with one another to determine the contours of what they call English policing culture. They draw on documentary analysis of official representations of policing and oral historical research with citizens, police officers, former government ministers and civil servants to show that far from being demystified, policing is a cultural institution that remains deeply entangled with questions of subjectivity, recognition, belonging and collective identity. This cultural sociology of English policing sheds new light on the social changes and conflicts that have called police authority into question in the decades since 1945 and offers an important appraisal of what is at stake in the contemporary cultural politics of policing.

Policing Contingencies Peter K. Manning, 2010-02-15

Despite constant calls for reform, policing in the United States and Britain has changed little over the past thirty years. In *Policing Contingencies*, Peter K. Manning draws on decades of fieldwork to investigate how law enforcement works on the ground and in the symbolic realm and why most efforts to reform the way police work have failed so far. Manning begins by developing a model of policing as drama, a way of communicating various messages to the public in an effort to enforce moral boundaries. Unexpected outcomes or contingencies continually rewrite the plot of this drama, requiring officers to adjust accordingly. New information technologies, media scrutiny and representations and community policing also play important roles, and Manning studies these influences in detail. He concludes that their impacts have been quite limited because the basic structure of policing officer assessments based on encounters during routine patrols has remained unchanged. For policing to really change, Manning argues, its focus will need to shift to prevention. Written with precision and judiciously argued, *Policing Contingencies* will be of value to scholars of sociology, criminology, information technology and cultural theory.

Unhappy Dialogue James Whitfield, 2013-01-10

This book is concerned with the origins of the often difficult relationship between the Metropolitan Police and London's West Indian community and is the first detailed account of the relationship between them during the crucial early decades of large-scale immigration. It shows how and why the early seeds of mistrust between police and black immigrants were sown, culminating in the subsequent riots and

public enquiries in particular the Scarman and MacPherson enquiries Drawing upon a wide range of interviews as well as detailed archival research this book also sheds new light on the relationship between the Home Secretary and the Metropolitan Police Commissioner in the post war period the cultures and subcultures within the Met and the different priorities to be found within its rank structure the nature of cultural and ethnic prejudice in the Met at the time its self imposed alienation from the community it served and the Met s lack of commitment at the highest level to community and race relations training All these issues are examined in the broader context of British society in the 1950s and 1960s providing a prism through which to explore the broader context of race relations in Britain in the post war period

Manning, 2015-11-17 Democratic policing today is a widely used approach to policing not only in Western societies but increasingly around the world Yet it is rarely defined and it is little understood by the public and even by many of its practitioners Peter K Manning draws on political philosophy sociology and criminal justice to develop a widely applicable fundamental conception of democratic policing In the process he delineates today s relationship between democracy and policing Democratic Policing in a Changing World documents the failure of police reform showing that each

new approach such as crime mapping and hot spots policing fails to alter any fundamental practice and has in fact increased social inequalities He offers a new and better approach for scholars policy makers police governments and societies
