Racism In Europe 1870 :

Racism in Europe Neil MacMaster, 2017-03-08 The study of modern racism has tended to treat anti-Semitism and anti-black racism as separate and unconnected phenomena. This innovative study argues that a full understanding of the origins and development of racism in Europe after 1870 needs to examine the structure and interrelationships between the two dominant forms of prejudice. Contrary to expectation, anti-black racism was not confined to the colonial maritime nations of western Europe but perpetrated even the rural societies of central and eastern Europe. Likewise, anti-Semitism could flourish even in the almost total absence of Jews. MacMaster explores the conditions under which modern political movements faced with the crisis of modernity began to draw upon and mobilise the negative stereotypes that through the development of the mass media had become almost universal features of popular culture. By weaving together the changing spatial and temporal dimensions of anti-Semitic and anti-black prejudice, the study provides a fresh and more global framework for understanding modern racism.

Racism and Anti-Racism in Europe Alana Lentin, 2004-06-20 Remarkable a major contribution to our understanding and handling of one of the crucial contemporary issues that acquires more gravity by the day. Zygmunt Bauman. This is an in-depth sociological study of the phenomenon of anti-racism as both political discourse and social movement practice in western Europe. Lentin develops a comparative study of anti-racism in Britain, France, Italy, and Ireland. While race and racism have been submitted to many profound analyses, anti-racism has often been dealt with as either the mere opposite of racism or as a theme for prescriptives or polemics by those concerned with the persistence of racist discrimination. By contrast, this book views anti-racism as a variety of discourses that are central to the understanding of the politics of modern states. Examining anti-racism gives us insights not only into current debates on citizenship, immigration, and Europeanisation but it also crucially assists us in understanding the nature of race, racism, and racialisation themselves. At a time of mounting state racism against asylum seekers, migrants, and refugees throughout Europe and beyond, this book provides a much-needed exploration of the discourse of anti-racism that shapes

sexuality A window onto contemporary racial understandings Human Exhibitions presents interviews with the descendants of displayed people connecting the attitudes and science of the past with both our continued modern fascination with the exotic and contemporary language and popular culture As such it will be of interest to scholars of sociology anthropology and history working in the areas of gender and sexuality race whiteness and post colonialism **Ideologies of Race** David Rainbow,2019-10-17 Over the last thirty years Canadian policy on aboriginal issues has come to be dominated by an ideology that sees aboriginal peoples as nations entitled to specific rights Indians and Inuit now enjoy legal privileges that include the inherent right to self government collective property rights immunity from taxation hunting and fishing rights without legal limits and free housing education and medical care Underpinning these privileges is what Tom Flanagan describes as aboriginal orthodoxy the belief that prior residence in North America is an entitlement to special treatment Flanagan shows that this orthodoxy enriches a small elite of activists politicians administrators and well connected entrepreneurs while bringing further misery to the very people it is supposed to help Controversial and thought provoking First Nations Second Thoughts dissects the prevailing ideology that determines public policy towards Canada s aboriginal peoples Flanagan analyzes the developments of the last ten years showing how a conflict of visions has led to a stalemate in aboriginal policy making He concludes that aboriginal success will be achieved not as the result of public policy changes in government but through the actions of the people themselves *Colonialism and the Jews in German History* Stefan Vogt,2022-06-16 Colonialism and the Jews in German History brings together new and path breaking studies on the historical relationship between colonialism and the Jews in Germany The book considers the mutual influences on the situation of the Jews in Germany including attitudes towards Jews and anti-Semitism but also Jewish self conceptions and the ideology and politics of German colonialism The contributors discuss the ways in which colonial ideology and practice have affected the position of the Jews in Germany and the relationship between anti-Semitism and colonial racism In doing so the volume introduces German colonialism as a relevant context for German Jewish history and it expands the perspective on German colonial history significantly by considering Jews both as distinct objects and also as agents within the field of German colonialism The volume includes studies on the pre colonial era the phase of active German colonialism since the 1880s and the time after Germany lost its colonies in the First World War All these studies testify to the fact that German Jewish history takes on additional significance if seen as part of a global history of collective relationships Transnational Spaces and Identities in the Francophone World Hafid Gafa ti,Patricia M. E. Lorcin,David G. Troyansky,2009-07-01 The dissolution of the French Empire and the ensuing rush of immigration have led to the formation of diasporas and immigrant cultures that have transformed French society and the immigrants themselves Transnational Spaces and Identities in the Francophone World examines the impact of this postcolonial immigration on identity in France and in the Francophone world which has encompassed parts of Africa the Middle East Southeast Asia and the Americas Immigrants bear cultural traditions within

themselves transform host communities and are in turn transformed These migrations necessarily complicate ideals of national literature culture and history forcing a reexamination and a rearticulation of these ideals Exploring a variety of texts informed by these transnational conceptions of identity and space the contributors to this volume reveal the vitality of Francophone studies within a broad range of disciplines periods and settings They remind us that the idea and reality of Francophonie is not a late twentieth century phenomenon but something that grows out of long term interactions between colonizer and colonized and between peoples of different nationalities ethnicities and religions Truly interdisciplinary this collection engages conceptions of identity with respect to their physical geographic ethnic and imagined realities **Race**
