Presented in five parts, David M. Goodman and Matthew Clemente collaborate with an international community of scholars and practitioners to consider how psychoanalytic formulations can be brought to bear on the impact technology has had on the facets of human subjectivity. Chapters examine how technology is reshaping our understanding of what it means to be a human subject through embodiment, intimacy, porn, political motivation, mortality, communication, interpersonal exchange, thought, attention, responsibility, vulnerability, and more. Filled with thought-provoking and nuanced chapters, the contributors approach technology from a diverse range of entry points, but all engage through the lens of psychoanalytic theory, practice, and thought. This book is essential for academics and students of psychoanalysis, philosophy, ethics, media, liberal arts, social work, and bioethics. With the inclusion of timely chapters on the coronavirus pandemic and teletherapy, psychoanalysts in practice and training, as well as other mental health practitioners, will also find this book an invaluable resource.
