Johnson,2013-07-24 This volume explores agenda setting theory in light of changes in the media environment in the 21st century In the decades since the original Chapel Hill study that launched agenda setting research the theory has attracted the interest of scholars worldwide *Agenda Setting in a 2.0 World* features the work of a new generation of scholars The research provided by these young scholars reflects two broad contemporary trends in agenda setting A centrifugal trend of research in the expanding media landscape and in domains beyond the original focus on public affairs and a centripetal trend further explicating agenda setting s core concepts     *Agenda-Setting* James W. Dearing, Everett Rogers,1996-08-28 What is the biggest social problem in the news today Who makes issues newsworthy and important Why do some issues receive more attention than others Social issues that are widely recognized in the media s agenda often demand attention on the public agenda and in turn slide up the policy agenda creating policy changes James W Dearing and Everett M Rogers s research on social issues that hit the top of the media agenda the war on drugs drunk driving the Exxon Valdez AIDS and the Ethiopian famine provides important theoretical and practical insight into the agenda setting process and its role in effecting social change This reader friendly volume introduces students to an important area of communication research and offers them direction for further inquiry Researchers and professionals in political and mass communication media studies research

methods and marketing will appreciate this volume's insightful approach to agenda setting and policy. Agenda Setting is a very useful introduction to the topic as well as a thorough review of the stream of research. This book introduces a number of ideas that are useful in public relations strategic planning such as the concept of an issue life cycle. A lag lead analysis of issue development is discussed that would also prove useful to campaign planners. The concept of framing is introduced as a technique that brings meaning to an issue. Public Relations Review Authors James W. Dearing and Everett M. Rogers explain the importance of the agenda setting hypothesis in mass communication research and suggest how research can be advanced in the future. In the book's most impressive character, the authors raise 12 research issues to advance agenda setting including the need for more international comparative approaches. A very complete list of references and a separate list of suggested readings are helpful to scholars. Highly recommended for all serious collections in journalism, mass media, mass communication, political science, and public policy research. R. A. Logan in *Choice*. *Handbook of Public Policy Agenda Setting* Nikolaos Zahariadis, 2016-09-28. Setting the agenda on agenda setting: this Handbook explores how and why private matters become public issues and occasionally government priorities. It provides a comprehensive overview and analysis of the perspectives, individuals, and institutions involved in setting the government's agenda at subnational, national, and international levels. Drawing on contributions from leading academics across the world, this Handbook is split into five distinct parts. Part one sets public policy agenda setting in its historical context, devoting chapters to more in-depth studies of the main individual scholars and their works. Part two offers an extensive examination of the theoretical development, whilst part three provides a comprehensive look at the various institutional dimensions. Part four reviews the literature on subnational, national, and international governance levels. Finally, part five offers innovative coverage on agenda setting during crises. *The Public and the National Agenda* Wayne Wanta, 2023-06-09. Focusing on the agenda setting function of the news media from an information processing standpoint, this volume examines how individuals expose themselves to news media content and how this content translates into issue salience. It utilizes the individual as the unit of measurement. Many agenda setting studies have used the issue rather than the individual as the unit of measurement. By employing an agenda setting susceptibility index, the book details how individuals who actively process information in the news media are most susceptible to agenda setting effects. Merging agenda setting with research in information processing and uses and gratifications, it proposes and tests a causal model of media agenda setting influences by examining demographics, psychological factors, and behavioral variables of individuals. *Agenda Setting in the U.S. Senate* Chris Den Hartog, Nathan W. Monroe, 2014-05-14. Proposes a new theory of Senate agenda setting. *Communication and Democracy* Maxwell E. McCombs, Donald Lewis Shaw, David Hugh Weaver, 1997. First in a trilogy on Communication and Democracy. Also fits with Gonzenbach, Semetko, and Pross. McCombs. For grads and beyond in journalism, poli comm, and mass comm. *Making the News* Amber E. Boydston, 2022-12-22. Media attention can play a profound role in whether or not officials act on a policy issue, but how policy

issues make the news in the first place has remained a puzzle Why do some issues go viral and then just as quickly fall off the radar How is it that the media can sustain public interest for months in a complex story like negotiations over Obamacare while ignoring other important issues in favor of stories on balloon boy With *Making the News* Amber Boydstun offers an eye opening look at the explosive patterns of media attention that determine which issues are brought before the public At the heart of her argument is the observation that the media have two modes an alarm mode for breaking stories and a patrol mode for covering them in greater depth While institutional incentives often initiate alarm mode around a story they also propel news outlets into the watchdog like patrol mode around its policy implications until the next big news item breaks What results from this pattern of fixation followed by rapid change is skewed coverage of policy issues with a few receiving the majority of media attention while others receive none at all Boydstun documents this systemic explosiveness and skew through analysis of media coverage across policy issues including in depth looks at the waxing and waning of coverage around two issues capital punishment and the war on terror *Making the News* shows how the seemingly unpredictable day to day decisions of the newsroom produce distinct patterns of operation with implications good and bad for national politics
