Signs of the Times Ray Grasse, 2002-04-01 A unique and extremely interesting examination of both history and the unfolding present as seen through the prism of astrological significance John Anthony West author of *Serpent in the Sky* We may live in astonishing times but they are not incomprehensible when you know how to read the signs Everybody says we re entering the Age of Aquarius but when does it start and how will we know what it looks and feels like Ray Grasse deciphers the signs and correspondences of our nearing Aquarian future using the tools of astrology synchronicity and mythology He draws richly from contemporary religion art politics science even current movies to show how the cultural signs of Aquarius and our likely future are already apparent and changing our world The Aquarian Age will be marked by its intensely mental quality when information will be the driving force of society and the biggest challenges we face will be those of the mind Decentralization will be the order of business either the empowered individual will reign supreme or the collective interests of globalized society will predominate It could be both We are all participants in the global drama and all aspects of our inner and outer lives are bound up with the new Aquarian themes Signs of the Times is the authoritative travel guide for the trip into our future don t leave the present without it An attempt firmly anchored in the age old tradition of spiritual symbology to make sense of what often strikes us as utterly chaotic arbitrary and senseless

He reveals that telepathy depends on social bonds and traces its evolution from the connections between members of animal groups such as flocks, schools and packs.
