hold or a title you carry it is a choice you make every single day In boardrooms across the globe in community centers in classrooms and in family kitchens true leaders emerge not because they were appointed but because they chose to step forward when others stepped back They chose to serve when others sought to be served They chose to inspire when others complained The journey toward becoming a highly effective leader begins with a fundamental understanding that leadership is at its core about influence Not the kind of influence that manipulates or coerces but the kind that draws people toward a shared vision a common purpose and a better tomorrow This influence stems from authenticity the first and perhaps most crucial secret of highly effective leaders Authentic leadership means leading from your true self not from a persona you think people want to see It means acknowledging your strengths without arrogance and your weaknesses without shame When leaders try to be someone they are not people sense the disconnect immediately There is something deeply unsettling about a leader who appears polished on the surface but hollow underneath Conversely there is something magnetic about a leader who owns their imperfections learns from their mistakes and leads with genuine conviction

Análisis de la creación de valor Martelo Landroguéz, Silvia,2017-06-05 El mundo de la empresa gira alrededor de la creaci n de valor objetivo principal de cualquier estrategia empresarial Prueba de ello es que la creaci n de valor ha supuesto y supone una preocupaci n notable en m ltiples disciplinas acad micas entre las que destaca la direcci n estrat gica en general o la disciplina del marketing en particular No obstante la mayor a de los estudios que se han desarrollado en estas disciplinas han partido de premisas distintas as unos han estado m s centrados en las propias caracter sticas de las empresas y sin embargo otros han estado m s enfocados en la percepci n externa de las actividades empresariales Pero han sido muy pocas las investigaciones que persiguen aunar estos dos diferentes enfoques para profundizar detenidamente sobre este campo de estudio Crear valor implica un amplio conjunto de decisiones que posibilitan el desarrollo de numerosas investigaciones Las empresas se enfrentan a un gran abanico de conceptos y relaciones que dibujan un nudo entrelazado que no es f cil de desenredar y comprender La estrategia empresarial persigue crear valor para la empresa pero su verdadero inter s es apropiarse del m ximo valor posible creado Para ello las empresas dependen no s lo de sus propios recursos y capacidades organizativas sino que tambi n est n en manos de las percepciones de sus clientes y de su reacci n ante la oferta de valor de la empresa frente a la de las empresas competidoras Todo ello lleva a plantear este estudio sobre la creaci n de valor desde una doble perspectiva en primer lugar incidiendo sobre la visi n interna de lo que acontece en la propia empresa para as poder desarrollar una capacidad que le permita crear valor y en segundo lugar centr ndose en la visi n externa de los clientes ya que son stos los que determinan la posibilidad y el grado de apropiaci n de valor por parte de la organizaci n que lo crea y lo pone a disposici n del mercado
