Rottman, 2013-05-20 This book reveals the evolving US Viet Cong and NVA tactics at battalion level and below throughout the Vietnam War Beginning with a description of the terrain climate and the unique nature of operations in this theatre of war the author a Vietnam veteran himself goes on to explain how unit organisation was broken down by combatant forces and the impact this had on the kind of tactics they employed In particular the author highlights how units were organised in reality on the battlefield as opposed to their theoretical tables of organisation US tactics included the standard US tactical doctrine as prescribed by several field manuals and in which leaders and troops were rigorously trained But it also reveals how many American units developed innovative small unit tactics specifically tailored to the terrain and enemy practices In contrast this book also reveals the tactics employed by Viet Cong and NVA units including their own Offensive Operations Reconnaissance Movement Formations and Security and Ambushes *The US Army in the Vietnam War 1965-73* Gordon L. Rottman, 2013-02-20 This book provides detailed information about how US Army units were organised and operated in America's longest war Vietnam Special Forces veteran Gordon L Rottman examines the different types of infantry battalions and the units that supported them their training and organisation down to platoon level Aspects of the US Army's conventional and unconventional warfare doctrine are also addressed along with a discussion of how replacements were trained and integrated into units Among other areas of the US

Villard, **Rolling Thunder in a Gentle Land** Andrew Wiest, 2013-05-20 Fifteen renowned authors from widely varied backgrounds examine the Vietnam War providing a fresh insight into this controversial conflict even for those who have read it all before This is a superb and compelling reexamination of the major historical political and ethical issues that continue to smoulder many decades after the conclusion of the Vietnam War I highly recommend Rolling Thunder in a Gentle Land It is among the best books of its kind that I ve encountered over the last dozen years Tom O'Brien author of The Things They Carried First hand accounts maps and contemporary photographs analysis from the soldiers involved and new perspectives from combatants on both sides provide an incisive investigation into a fascinating and terrible war *Forward into Battle* Paddy Griffith, 2011-03-30 The first edition 1981 took a critical look at the accepted wisdom of historians who interpreted battlefield events primarily by reference to firepower It showed that Wellington's infantry had won by their mobility rather than their musketry that the bayonet did not become obsolete in the nineteenth century as is often claimed and that the tank never supplanted the infantryman in the twentieth A decade later the author has been able to fill out many parts of his analysis and has extended it into the near future The Napoleonic section includes an analysis of firepower and fortification notably at the Battle of New Orleans in 1815 Additional discussions of the tactics of the American Civil War have been included The evolution of small unit tactics in the First World War is next considered then the problem of making an armored breakthrough in the Second World War Following is a discussion of the limitations of both the helicopter and firepower in Vietnam The author points to some of the lessons learned by the U S military and the doctrine which resulted from that experience Concluding is a glimpse at the strangely empty battlefield landscape that might be expected in any future high technology conflict **Seven Firefights in Vietnam** John Albright, John A. Atkins,2014-08-15 This monograph examines the adequacy of current jungle and infantry doctrine in addressing the conduct of night operations in jungle environment Daytime jungle operations already have much in common with night operations in general due to the limited visibility afforded by the dense vegetation The degree of difficulty increases dramatically when operating during darkness Such operations require a thorough understanding of why when and how to conduct them This monograph first examines the night jungle operations conducted during WWII and the Vietnam Conflict to gain a historical perspective of the types of operations conducted in the past as well as their success It then reviews and analyzes current doctrine for night fighting to determine its applicability to a jungle environment Next the monograph contrasts past night jungle operations with current doctrine and concludes that current doctrine does not

sufficiently address the conduct of night jungle warfare Lastly the monograph offers some recommendations for inclusion to doctrine to address the shortcomings identified

**Alliances & Armor** Jim Pomeroy, 2025-07-10 Jim Pomeroy's *Alliances Armor* bridges the gaps between Cold War diplomacy and military operational history With a firm grasp of multi archival and secondary sources Pomeroy provides a comprehensive look at the international issues that influenced Hanoi's decisions in the Second Indochina War in a concise and deftly written narrative This is a strong addition to the voluminous literature of the war in Vietnam Kelly Cramer Vietnam Center and Sam Johnson Vietnam Archive The People's Army of Vietnam's decision to utilize armor as part of its warfighting strategy was a product of various geopolitical factors that surrounded Hanoi during various parts of the Vietnam War During the First Indochina War the People's Republic of China PRC emerged as the foremost communist benefactor of North Vietnam The Soviet Union however largely stood by While worried by the PRC's and Soviet Union's actions during the Geneva Conference of 1954 Hanoi still felt the need to maintain good relations with both countries This was reinforced when the Sino Soviet split occurred in 1956 and Hanoi was forced to walk a tight rope between Beijing and Moscow As the United States escalated its war in Vietnam Moscow now under new leadership sought to increase its material support for Hanoi As the war progressed Hanoi sought to fight larger battles against the Americans and their South Vietnamese allies In order to fight larger battles the PAVN needed more modern military equipment that only the Soviet Union could provide This paired with the chaos of the ongoing Cultural Revolution in China led Hanoi to lean more

towards Moscow in the latter years of the Vietnam War As part of this newly blossomed relationship Moscow began to furnish the PAVN with more modern weapons including Soviet armor Initially the PAVN s use of armor at Lang Vei 1968 and Laos 1971 was met with some success However in 1972 Hanoi panicked as the United States began to reach d tente with Beijing and Moscow This led to fears of another Geneva and thus lead Hanoi to pursue a rushed Easter Offensive in March 1972 which saw ill trained PAVN tank crews fall prey to poor planning and bad strategy This changed in 1975 when following the Paris Peace Accords and subsequent combined arms training in the Soviet Union the PAVN victoriously drove its Soviet armor into Saigon
