Seventy Years In The Silicon Valley:

Seventy Years in the Silicon Valley Clarence Robert Tower, 2023 California's Santa Clara Valley was a wonderful place to live even before it became known worldwide as Silicon Valley the birthplace of high technology Historian author artist Bob Tower's anecdotes about growing up in Santa Clara provide an engaging easy to read history of the Valley of Heart's Delight Silicon Valley the place he's called home for more than eighty years Legendary Locals of Santa Clara Clarence Robert Tower and Ken Lichtenstein, 2014 The city of Santa Clara lies in the very heart of the Santa Clara Valley directly south of San Francisco Bay It is the home base of the internationally famous Santa Clara Swim Club the equally famous synchronized swim team the Santa Clara Aquamaids the International Swim Center and the San Francisco 49ers professional football team It boasts world class parks theaters museums acting groups a featured chorale a nationally ranked drum and bugle corps a major theme park a convention center and a first class hotel system for those who wish to visit Legendary Locals of Santa Clara celebrates the people who guided all of this to its realization **My Seventy Years in the Silicon Valley** Clarence Robert Tower, 1999 *A Uterus Is a Feature, Not a Bug* Sarah Lacy, 2017-11-14 A rallying cry for working mothers everywhere that demolishes the distracted emotional weak stereotype and definitively shows that these professionals are more focused decisive and stronger than any other force Working mothers aren't a liability They are assets you and every manager and executive want in your company in your investment portfolio and in your corner There is copious academic research showing the benefits of working mothers on families and the benefits to companies who give women longer and more flexible parental leave There are even findings that demonstrate women with multiple children actually perform better at work than those with none or one Yet despite this concrete proof that working mothers are a lucrative asset they still face the Maternal Wall widespread unconscious bias about their abilities contributions and commitment Nearly eighty percent of women are less likely to be hired if they have children and are half as likely to be promoted Mothers earn an average 11 000 less in salary and are held to higher punctuality and performance standards Forty percent of Silicon Valley women said they felt the need to speak less about their family to be taken more seriously Many have been told that having a second child would cost them a promotion Fortunately this prejudice is slowly giving way to new attitudes thanks to more women starting their own businesses and companies like Netflix Facebook Apple and Google implementing more parent friendly policies But the most important barrier to change isn't about men Women must rethink the way they see themselves after giving birth As entrepreneur Sarah Lacy makes clear in this cogent persuasive analysis and clarion cry the strongest most lucrative and most ambitious time of a woman's career may easily be after she sees a plus sign on a pregnancy test **Reality Check** Guy Kawasaki, 2008 For nearly three decades Guy Kawasaki has earned a stellar reputation as an entrepreneur venture capitalist and irreverent pundit His 2004 bestseller *The Art of the Start* has become the most acclaimed bible for small businesses and his blog is one of the 50 most popular in the world Now Kawasaki has compiled his best wit wisdom and contrarian opinions

in handy book form from competition to customer service innovation to marketing he shows readers how to ignore fads and foolishness while sticking to common sense practices **Measured Success** Peter Cebon, 2008-07-15 For several years Australia has been slipping behind the rest of the OECD in its rate of business innovation If as economists believe innovation is the fundamental driver of prosperity this is a harbinger of long term problems for the country To find a successful way forward we need to understand the nature and limitations of our innovation achievements *Measured Success* analyses eleven cases of Australian high technology innovation exploring where we have gone right and where more could have been achieved Drawing lessons from both the successes and failures the authors provide valuable insights into Australian innovation management and the challenges that lie ahead *Measured Success* is an important commentary on the state of innovation in Australia and offers fresh direction for policy in this area *Seventy Years in the Silicon Valley Tower* Clarence Robert (author), 1901 *Unretirement* Chris Farrell, 2014-09-02 An optimistic report on how aging baby boomers are positively contributing to the economy argues that an avoidance of retirement through new careers entrepreneurial ventures and volunteer services has brought motivation and purpose to countless Americans *Behind the Startup* Benjamin Shestakofsky, 2024-03-19 As dreams of our technological future have turned into nightmares some blame harmful algorithms or greedy CEOs for the negative consequences of innovation *Behind the Startup* takes a different approach Drawing on 19 months of participant observation research inside a successful Silicon Valley startup this book examines how the company was organized to meet the needs of the venture capital investors who funded it Investors push startups to scale as quickly as possible to inflate the value of their asset I show how these demands created organizational problems that managers could only solve by combining high tech systems with low wage human labor With its focus on the financialization of innovation *Behind the Startup* explains how the gains generated by Silicon Valley companies are funneled into the pockets of a small cadre of elite investors and entrepreneurs Readers will come away from the book with the understanding that if we want to promote innovation that benefits the many rather than the few we need to focus less on fixing the technology and more on changing the financial infrastructure that supports it *A Year of Movies* Ivan Walters, 2015-11-12 While watching a movie how many viewers notice some of the finer details of the film such as the time of day during a scene or even the date itself For instance does anyone remember what day detention is served by the high schoolers in *The Breakfast Club* or can guess when aliens first make their presence known in *Independence Day* And perhaps only history buffs or fanatics of Leonardo DiCaprio can cite the exact date the Titanic sunk In *A Year of Movies* 365 Films to Watch on the Date They Happened Ivan Walters provides a selection for every day on the calendar in which at least some of the events in the film take place For some films the entire drama occurs on a very specific day For other films such as *The Right Stuff* the date in question is represented in a key scene or two or even for just a few pivotal seconds Certain films to be sure are obvious candidates for inclusion in this book What other movie would make sense to watch on February 2nd than *Groundhog Day* Is

there a more appropriate film to consider for June 6th than The Longest Day Representing a variety of genres from comedies and dramas to westerns and film noir these films offer fans a unique viewing opportunity While helping viewers decide what to watch on a given day this book will also introduce readers to films they may not have otherwise considered Aimed at film buffs and casuals viewers alike A Year of Movies is also an ideal resource for librarians who want to offer creative programming for their patrons
