slept with one of Hooker's slides beneath his pillow hoping to tap some of the elder bluesman's power And B B King has said repeatedly that for his money Hooker was the best guitar player he ever met Tragically Earl Hooker died of tuberculosis in 1970 when he was on the verge of international success just as the Blues Revival of the late sixties and early seventies was reaching full volume Second cousin to now famous bluesman John Lee Hooker Earl Hooker was born in Mississippi in 1929 and reared in black South Side Chicago where his parents settled in 1930 From the late 1940s on he was recognized as the most creative electric blues guitarist of his generation He was a musician's musician defining the art of blues slide guitar and playing in sessions and shows with blues greats Muddy Waters Junior Wells and B B King A favorite of black club and neighborhood bar audiences in the Midwest and a seasoned entertainer in the rural states of the Deep South Hooker spent over twenty five years of his short existence burning up U S highways making brilliant appearances wherever he played Until the last year of his life Hooker had only a few singles on obscure labels to show for all the hard work The situation changed in his last few months when his following expanded dramatically Drove of young whites were seeking American blues tunes and causing a blues album boom When he died his star's rise was extinguished Known primarily as a guitarist rather than a vocalist Hooker did not leave a songbook for his biographer to mine Only his peers remained to praise his talent and pass on his legend Earl Hooker's life may tell us a lot about the blues biographer Sebastian Danchin says but it also tells us a great deal about his milieu This book documents the culture of the ghetto through the example of a central character someone who is to be regarded as a catalyst of the characteristic traits of his community Like the tales of so many other unheralded talents among bluesmen Earl Hooker Blues Master Hooker's life story has all the elements of a great blues song late nights long roads poverty trouble and a soul felt pining for what could have been

The Structure of Political Geography Julian Minghi, 2017-09-04 This volume seeks to provide a sense of purpose and order to the study of political geography The editors devise a conceptual structure for the field bringing political geography into line with trends in contemporary geography as a whole and with other social sciences Not only do the selections contain a wide variety of contributions from other fields but the introductory essays and annotated bibliographies suggest related research The structure of the book enjoys close parallels in other social sciences The organization of the book reflects the editors' definitions and structuring of political geography Part I Heritage includes works that have contributed to the theoretical development of the field Part II Structure comprises the concern to which political geographers have devoted most of their past attention Parts III and IV Process and Behavior form the subject where much future theoretical and practical effort is needed Part V Environment provides the context in which spatial structure process and behavior occur The Structure of Political Geography includes selections from sociobiology history international relations political economy political science social psychology and sociology The classics in the field are an essential inclusion since the book would be incomplete without them The selections in the volume originally published in 1971 remain useful and pertinent to political geographers of diverse persuasion and to social scientists

interested in geographical approaches The fact that there is a clear focus and conceptual interdependence in political geography is the volume s greatest contribution Gibson J. W. Peterson,2019-08-13 Gibson is an exciting portrayal of contemporary life on the prairies of central Montana and is set against themes of mystery discovery and the seeming randomness of events in an indifferent world The story concerns the discovery of an enormous cave system by two men of dissimilar character and upbringing that leads both of them to a fated sense of allegiance to one another a relationship that becomes stressed to the breaking point by jealousy mental illness and the often violent and uncontrollable forces of nature
