Sex and Repression in Savage Society Bronislaw Malinowski, 2003-09-02 Part of the new Routledge Classics series Malinowski was one of the founders of social anthropology and one of the first to become involved in ethnographic fieldwork A core primary text for undergraduates in anthropology philosophy and psychology *Gender and Sexuality in Ghanaian Societies* Martha Donkor, Amoaba Gooden, 2022-09-01 *Gender and Sexuality in Ghanaian Societies* explores cultural dynamics embedded in the interstices of agency vulnerability and power within patriarchal structures that seek to regulate the sexual lives of women in Ghana Emphasizing the centrality of gender as a motive force for sexual expression the book stresses that contemporary Ghanaian women's sexual expressions are caught at the intersection of traditional gender expectations of heteronormativity and women's perceptions of how heteronormativity should operate in their lives The book's emphasis on women's agency is significant because it highlights a flaw in earlier Western accounts of African women's lives under Africa's special brand of patriarchy that held women in total subjection to men *Gender and Sexuality* debunks that trope and presents Ghanaian women's dynamism resilience and vulnerabilities embedded in the diverse cultures in which they live

**The Ground Between** Veena Das,Michael Jackson,Arthur Kleinman,Bhri Gupta Singh,2014-04-21 The guiding inspiration of this book is the attraction and distance that mark the relation between anthropology and philosophy This theme is explored through encounters between individual anthropologists and particular regions of philosophy Several of the most basic concepts of the discipline including notions of ethics politics temporality self and other and the nature of human life are products of a dialogue both implicit and explicit between anthropology and philosophy These philosophical undercurrents in anthropology also speak to the question of what it is to experience our being

in a world marked by radical difference and otherness In *The Ground Between* twelve leading anthropologists offer intimate reflections on the influence of particular philosophers on their way of seeing the world and on what ethnography has taught them about philosophy Ethnographies of the mundane and the everyday raise fundamental issues that the contributors grapple with in both their lives and their thinking With directness and honesty they relate particular philosophers to matters such as how to respond to the suffering of the other how concepts arise in the give and take of everyday life and how to be attuned to the world through the senses Their essays challenge the idea that philosophy is solely the province of professional philosophers and suggest that certain modalities of being in the world might be construed as ways of doing philosophy

**Professing Sociology** Irving Horowitz, 2017-07-05 *Professing Sociology* was originally published at a time when sociology commanded widespread interest and public funding Written by one of the leaders of the new sociology of the late sixties this volume captures the

nature and intensity of the field's intellectual foundations and scope. It reveals the field's post World War II development as a scientific discipline and as a profession and includes the author's most significant writings on critical trends shaping the field. Irving Louis Horowitz divides the life cycle of sociology into three main sections. The first deals with the inner life of sociology covering basic theoretical issues uniting and dividing the profession. In a second section, Horowitz shows the institutions and sources from which the struggle of ideas is nourished. A third section shows how political life shapes the inner life of American sociology. Horowitz gives a great deal of attention to international social science, to the relationship of social science to public policy and to federal projects and grant agencies and their effects on research. Irving Louis Horowitz was undoubtedly influential in shaping his field, and *Professing Sociology* offers valuable insights into how ideas become part of the fabric of professional life. As the new introduction by Howard G. Schneiderman shows, *Professing Sociology* provides a clear picture of sociology at the height of its importance.

First Published in 1989. *Wisdom's Passing* is at once a history commentary and blueprint for positive change unlike any other book on education in the last quarter century. **The Materiality of Love** Anna Malinowska, Michael Gratzke, 2017-09-27. Drawing on love studies and research in material cultures, this book seeks to re-examine love through materiality studies, especially their recent incarnations: new materialism and object-oriented philosophy. It focuses on love as a material form and traces connections between feelings and materiality, especially in relation to the changing notion of the material as marked by digital culture, as well as the developments in understanding the nature of non-human affect. It provides insight into how materiality in its broadest sense impacts the understanding of the meanings and practices of love today and reversely how love contributes to the production and transformation of the material world.

**Conflicts in Feminism** Marianne Hirsch, Evelyn Fox Keller, 2015-10-15. *Conflicts in Feminism* proposes new strategies for negotiating and practicing conflict in feminism.
