Working Couples Rhona Rapoport, Robert N. Rapoport, 2022-02-23 Originally published in 1978 Working Couples deals with husbands and wives who both hold paid jobs The editors the late Robert N and Rhona Rapoport had established themselves as well respected authorities on dual career families and in this study they call upon other specialists in the field to apply their research experience to the consideration of the particular problems confronting working couples at the time They discuss how some of these issues had arisen and analyse how they were being dealt with in a number of contexts Working couples at the time were subject to constraints of various kinds in meeting the challenges they faced and there were many who rejected the lifestyle on these grounds but there were many others for whom it worked Numerous families were attempting to operate the pattern in new ways Both may have separate jobs and her income may not only be separate from his but in some cases larger and more reliable Such a situation creates its own problems which need to be resolved The authors look at and clarify some of the generic issues and discover which resolutions have been satisfactory as well as the various devices created for helping dual worker families to function

Steinmetz, Marvin B.

Sussman, 2013-11-11 The lucid straightforward Preface of this Handbook by the two editors and the comprehensive perspectives offered in the Introduction by one of them leave little for a Foreword to add It is therefore limited to two relevant but not intrinsically related points vis a vis research on marriage and the family in the interval since the first Handbook Christensen 1964 appeared namely the impact on this research of the politicization of the New Right and of the Feminist Enlightenment beginning in the mid sixties about the time of the first Handbook In the late 1930s Willard Waller noted Fifty years or more ago about 1890 most people had the greatest respect for the institution called the family and wished to learn nothing whatever about it Everything that concerned the life of men and women and their children was shrouded from the light Today much of that has been changed Gone is the concealment of the way in which life begins gone the irrational sanctity of the home The aura of sentiment which once protected the family from discussion clings to it no more We want to learn as much about it as we can and to understand it as thoroughly as possible for there is a rising recognition in America that vast numbers of its families are sick from internal frustrations and from external buffeting We are engaged in the process of reconstructing our family institutions through criticism and discussion 1938 pp 3 4 *Parenting and Child Development*
