Sex Change, Social Change Viviane K. Namaste, 2011 *Trans Bodies, Trans Selves* Laura Erickson-Schroth, 2014-05-12 There is no one way to be transgender Transgender and gender non conforming people have many different ways of understanding their gender identities Only recently have sex and gender been thought of as separate concepts and we have learned that sex traditionally thought of as physical or biological is as variable as gender traditionally thought of as social While trans people share many common experiences there is immense diversity within trans communities There are an estimated 700 000 transgendered individuals in the US and 15 million worldwide Even still there s been a notable lack of organized information for this sizable group *Trans Bodies Trans Selves* is a revolutionary resource a comprehensive reader friendly guide for transgender people with each chapter written by transgender or genderqueer authors Inspired by *Our Bodies Ourselves* the classic and powerful compendium written for and by women *Trans Bodies Trans Selves* is widely accessible to the transgender population providing authoritative information in an inclusive and respectful way and representing the collective knowledge base of dozens of influential experts Each chapter takes the reader through an important transgender issue such as race religion employment medical and surgical transition mental health topics relationships sexuality parenthood arts and culture and many more Anonymous quotes and testimonials from transgender people who have been surveyed about their experiences are woven throughout adding compelling personal voices to every page In this unique way hundreds of viewpoints from throughout the community have united to create this strong and pioneering book It is a welcoming place for transgender and gender questioning people their partners and families students professors guidance counselors and others to look for up to date information on transgender life **You've Changed** Lyn Merryfeather, 2016-07-15 Lesbian women who partner with female to male transsexuals FTMs are all but invisible in the literature They have been scarcely depicted in published work very few research studies have considered them an interesting population and there are few support organizations dedicated to their aid My work is about these women

I conducted research and wrote an evocative novella as a way to convey my findings. The main theme is the challenge of invisibility and marginalization experienced by lesbian women who find themselves partnered with trans men and must decide how to navigate a new identity while living with a mate who is experiencing the biggest life change possible and often has little energy left to support her. A secondary theme is the depiction of the experience of conducting such research in a cautious academic climate. The outstanding difference other than the rarity of the subject matter is the readability of the work. I used autoethnography as a methodology and wrote in an engaging way using poetry narration and imaginative fictionalized accounts of true experiences.

Transgender Aaron Devor, Ardel Haefele-Thomas, 2019-02-15 This book provides a crucial resource for readers who are investigating trans issues. It takes a diverse and historic approach focusing on more than one idea or one experience of trans identity or trans history. *Transgender A Reference Handbook* is a go-to resource about the transgender experience. The book takes contemporary as well as historic aspects into consideration. It looks at ancient indigenous cultures that honored third, fourth, and fifth gender identities as well as more contemporary ideas of what transgender means. Notably, it focuses not only on Western medical ideas of gender affirmation but on cultural diversity surrounding the topic. This book will primarily serve as a reference guide and jumping off point for further research for those seeking information about what it means to be transgender. While a reference book, it contains original work that may be cited in addition to the encyclopedia itself. In particular, the perspectives section of the book includes writings from some of the world's foremost trans writers, activists, artists, and historians.

Female Leaders in New Religious Movements Inga Bårdsen Tøllefsen, Christian Giudice, 2017-10-06 In this book, historians of religion and gender studies explore the biographies of a number of female leaders and the factors within their groups and cultural contexts that support these women's religious leadership. New Religious Movements have been supportive of women taking roles of leadership for a long time. Authors of this book examine issues of gender and female leadership from diverse theoretical and methodological standpoints. The book covers a broad range of groups both with regard to time and place, covering Paganism, Hindu guru groups, Christian organizations, esoteric mystical movements, African churches, and a Japanese NRM. The common focal point is the powerful prophetic charismatic women who have founded and/or led New Religious Movements.

Trans Lives in a Globalizing World J. Michael Ryan, 2020-09-30 This volume seeks to explore contemporary trans lives in a world that is both global and increasingly globalizing, examining the nuances of the rights, identities, and politics that make up the varied spectrum of what has come to be included under the largely Western-imposed label of trans. Trans identities and rights have become increasingly prominent in the social imagination in recent years, and in a growing number of locales, have also become hot-button political issues. As trans individuals are demanding and gaining their rights, these debates are bringing issues of trans lives to the forefront of politics and into social discussions in nearly every country in the world today. In a series of essays covering the key themes of Identities, Rights, and Politics, this interdisciplinary collection presents an

international range of topics spanning human rights and asylum seekers to the Hijras of South Asia and gender affirming surgeries all placing trans lives in a globalized context. This is an important contribution from a diverse group of established and emerging scholars seeking to position trans and transgender research in a global framework. It will be of key interest to researchers in Trans Studies, Gender Studies, Sexuality Studies, Cultural and Media Studies, Sociology, Politics and Anthropology and for introductory courses in gender and LGBT issues. Under the Rainbow Jeanette A. Auger, Kate Krug, 2020-07-10T00:00:00Z. With contributions from Dayna B. Daniels, Judy Davidson, Valda Leighteizer and Ross Higgins. *Under the Rainbow* is a primer on the social and political history and the everyday practices and processes of living queer lives in Canada. Framed through a life course perspective, this book provides an overview of the historical and contemporary issues in the lives of gay, lesbian, bisexual, trans and/or queer folk. The chapters in this text highlight the contributions of academics and community groups as well as individuals working on queer issues in Canada and focus primarily on contemporary Canadian material, introducing readers to topics such as law, history, health, education, youth, older persons, end of life decisions, social constructions of sexual identities, sports, transgender issues and issues experienced by lesbians and gay men living in Quebec. *Transgender Experience* Chantal Zabus, David Coad, 2013-11-26. This collection by trans and non-trans academics and artists from the United States, the UK and continental Europe examines how transgenderism can be conceptualized in a literary, biographical and autobiographical framework with emphasis on place, ethnicity and visibility. The volume covers the 1950s to the present day and examines autobiographical accounts and films featuring gender transition. Chapters focus on various stages of transitioning. Interviews with trans people are also provided. The Routledge Handbook of Contemporary Inequalities and the Life Course Magda Nico, Gary Pollock, 2021-12-30. Drawing upon perspectives from across the globe and employing an interdisciplinary life course approach, this handbook explores the production and reproduction of different types of inequality across a variety of social contexts. Inequalities are not static, easily measurable and essentially quantifiable circumstances of life. They are processes which impact on individuals throughout the life course, interacting with each other, accumulating, attenuating, reproducing or distorting themselves along the way. The chapters in this handbook examine various types of inequality, such as economic, gender, racial and ethnic inequalities, and analyse how these inequalities manifest themselves within different aspects of society, including health, education and the family, at multiple levels and dimensions. The handbook also tackles the global COVID-19 pandemic and its striking impact on the production and intensification of inequalities. The interdisciplinary life course approach utilised in this handbook combines quantitative and qualitative methods to bridge the gap between theory and practice and offer strategies and principles for identifying and tackling issues of inequality. This book will be indispensable for students and researchers as well as activists and policy makers interested in understanding and eradicating the processes of production, reproduction and perpetuation of inequalities. Insistence of the Material Christopher Breu, 2014-09-15. *Insistence of the Material* engages

with recent theories of materiality and biopolitics to provide a radical reinterpretation of experimental fiction in the second half of the twentieth century In contrast to readings that emphasize the metafictional qualities of these works Christopher Breu examines this literature's focus on the material conditions of everyday life from the body to built environments and from ecosystems to economic production In *Insistence of the Material* Breu rethinks contemporary understandings of biopolitics affirming the importance of forms of materiality that refuse full socialization and resist symbolic manipulation Breu considers a range of novels that reflect questions of materiality in a biopolitical era including William Burroughs's *Naked Lunch* Thomas Pynchon's *V* J G Ballard's *Crash* Dodie Bellamy's *The Letters of Mina Harker* and Leslie Marmon Silko's *Almanac of the Dead* Drawing from accounts of the emergence of immaterial production and biopolitics by Michel Foucault Giorgio Agamben Roberto Esposito and Michael Hardt and Antonio Negri Breu reveals the confrontational dimensions of materiality itself in a world devoted to the idea of its easy malleability and transcendence Taking his analysis beyond the boundaries of literature Breu argues that both materiality and subjectivity form sites of resistance to biopolitical control and that new developments in materialist theory advance a conception of social existence in which materiality rather than language or culture is the central term
