Urban Poverty in Turkey Burcu Sentürk, 2016-09-23

Gecekondu settlements or shanty towns in large Turkish cities are mostly populated by low income families many of which have migrated from the villages of Central Anatolia The rise of the Islamist party AKP in the 1990s and 2000s had a large impact on how these gecekondu's are examined and how they are perceived to reflect key issues at play in Turkish society welfare local identity religious communities and the rise of civil society Having lived in one of these neighbourhoods in Ankara Burcu Sentürk's book sheds light on the experience

of gecekondu dwelling in Turkey By focusing on this aspect she brings to the fore issues such as urbanisation modernisation and development as well as examining the impact these kinds of phenomena have on generation gaps and the role of women in Turkish society By using the framework of the experience of three generations of gecekondu dwellers enturk is able to chart the emergence development and the gradual breakdown of social relations and how the dynamics of these have changed during the course of the latter half of the twentieth century

Family and Human Development Across Cultures Cigdem Kagitibasi, 2014-03-05 The culmination of 15 years of research by a Turkish psychologist who was educated in the West this volume examines both the theoretical and practical aspects of cross cultural psychology It takes a contextual developmental functional approach linking the child family and society as they are embedded in culture A refreshingly different view the author presents a portrait of human development from the other side from the perspective of the majority world In a world seemingly dominated by American psychology she proposes the cross cultural orientation as a corrective to the culture boundedness of much of Euro American psychology Analyzing human development in context while avoiding the pitfalls of extreme relativism this work studies development with an inclusive holistic and ecological perspective focusing on the development of the self and of competence In so doing it also attempts to combine cultural contextualism with universalistic standards and psychological processes It proposes a theory of family change which challenges some commonly held modernization assumptions and links theory and application while examining the role of psychology in inducing social change

Understanding Social Psychology Across Cultures Peter B Smith, Michael Harris Bond, Cigdem Kagitibasi, 2006-01-26 This book is not an arcane tome restricted for use by specialists in cross cultural psychology It deals directly with what it sets out to do How can social psychology both address and incorporate what is known about cultural constants and variations in human thought and behavior In achieving this the authors have delivered in spades Their book is a must for social psychologists whether in their roles as teachers or researchers Importantly it is also a valuable text for advancing students of social psychology and should be required reading for any who propose to undertake postgraduate psychological research Journal of Cross Cultural Psychology It is useful in informing interactions with those of similar or different cultures and in understanding how cultural misunderstanding can occur For these reasons I believe it is worth reading and would recommend The Psychologist This will be my favourite text for recommending to graduate students who want to know what cross cultural psychology is about I wished all of their professors had read it For example I never saw levels of analysis explained so clearly I was comforted by the statement in the book that many studies in the published literature don't clearly state their level of analysis so failing to understand those articles is not only my problem The book is impressively comprehensive and broad yet very readable up to date and practically oriented Every source cited has been read critically and put into context A masterpiece Geert Hofstede The authors of this gracefully written text have a vision of their field that incorporates but far transcends the experimental social psychology familiar to Americans Using concepts and

data from a range of cultures they address problems in developmental personality and applied psychology with a particular emphasis on cross cultural interactions and global change Not since Roger Brown s classic has a text made social psychology so interesting Robert R McCrae This book is one of the best available texts on cross cultural psychology It reviews a large amount of cross cultural studies and covers a wide range of perspectives on culture It reveals what is unique to cross cultural psychology and reminds us that culture is central to the advancement of psychology as a discipline Patricia M Rodriguez Mosquera Brunel University The concept for this book is excellent As a global society we have many pressing problems It is wonderful to see these leading cross cultural psychologists make a highly sophisticated effort at applying the resources of social psychology to the needs of cultures throughout the world Jim Nelson Valparaiso University USA Illustrating ways in which culture shapes psychological processes across a wide range of social contexts Understanding Social Psychology Across Cultures examines the strengths and limitations of the key theories methods and instruments used in cross cultural research The book contains a broad range of pedagogical devices including further reading and discussion questions at the end of each chapter chapters on culture level studies personality and developmental issues and a glossary of key terms *Cultural Anthropology of the Middle East*, 1992 During the last two decades the number of anthropological studies on the Middle East has increased exponentially This partially annotated bibliography offers a comprehensive survey of studies written in English French and German and covers the period from 1965 to 1987 Honour Killings and Criminal Justice Ferya Taş-Çifçi, 2020-03-06 Despite recent reforms to the Turkish Penal Code the country retains a high level of honour based violence This book analyses the motives behind honour based violence in Turkey and examines the criminal justice system s approach to this type of crime The work takes a socio legal approach to explore the concepts of honour patriarchy and hierarchy along with the roles of culture and tradition It also examines how the legal system deals with this phenomenon focusing on the decisions of the criminal courts in honour killing cases and drawing on prisoner interviews These analyses show the extent to which the State follows a patriarchal approach when dealing with honour killings and inform recommendations for improving the legal and criminal justice system so as to deter crimes of this nature Women's Education in the Third World David H. Kelly, Gail P. Kelly, 2017-05-18 Originally published in 1989 This detailed bibliography focuses on women s education in the developing nations of Asia Africa Latin America and the Caribbean and the Middle East It contains annotations for about 1200 published works in English French Spanish Portuguese and German The entries include extensive research journal monograph and book literature items including chapters hidden in books that don t have women or education as their main theme The citations are organised thematically but with geographic divisions within each of the 15 sections and each entry has a decently detailed summary It is prefaced by a useful article written by Gail Kelly on the directions in research at the time and the development of women centric approaches Women Workers in Turkey Saniye Dedeoglu, 2007-10-24 Globalisation is often considered as not only generating jobs but also having a negative effect on

those at the bottom of the labour supply chain Here Saniye Dedeoglu shows us exactly how globalisation has affected women engaged in insecure invisible and low unpaid garment work Through a close ethnographic study of women workers in Istanbul s garment industry she reveals how industries have adapted their labour demands to make use of local female labour supplies and highlights the strategies and responses that have evolved in response to contemporary changes in global industrial production in Turkey Dedeoglu shows how production for global markets has seeped into local labour markets contributing to a culture of work which is informal and whose participants are often invisible Women Workers in Turkey throws up the critical question of what it means to be a woman in today s globalised society and is an important contribution to the various perspectives on the social and economic consequences of globalization to the least privileged in industrial societies

Islamist Mobilization in Turkey Jenny White, 2011-06-01 Winner of the William A Douglass Prize in Europeanist Anthropology The emergence of an Islamist movement and the startling buoyancy of Islamic political parties in Turkey a model of secular modernization a cosmopolitan frontier and NATO ally has puzzled Western observers As the appeal of the Islamist Welfare Party spread through Turkish society including the middle class in the 1990s the party won numerous local elections and became one of the largest parties represented in parliament even holding the prime ministership in 1996 and 1997 Welfare was formally banned and closed in 1998 and its successor Virtue was banned in 2001 for allegedly posing a threat to the state but the Islamist movement continues to grow in popularity Jenny White has produced an ethnography of contemporary Istanbul that charts the success of Islamist mobilization through the eyes of ordinary people Drawing on neighborhood interviews gathered over twenty years of fieldwork she focuses intently on the genesis and continuing appeal of Islamic politics in the fabric of Turkish society and among mobilizing and mobilized elites women and educated populations White shows how everyday concerns and interpersonal relations rather than Islamic dogma helped Welfare gain access to community networks building on continuing face to face relationships by way of interactions with constituents through trusted neighbors She argues that Islamic political networks are based on cultural understandings of relationships duties and trust She also illustrates how Islamic activists have sustained cohesion despite contradictory agendas and beliefs and how civic organizations through local relationships have ensured the autonomy of these networks from the national political organizations in whose service they appear to act To illuminate the local culture of Istanbul White has interviewed residents activists party officials and municipal administrators and participated in their activities She draws on rich experiences and research made possible by years of firsthand observation in the streets and homes of Umraniye a large neighborhood that grew in tandem with Turkey s modernization in the late 20th century This book will appeal to anthropologists sociologists historians and analysts of Islamic and Middle Eastern politics

Muslim Laws, Politics and Society in Modern Nation States Ihsan Yilmaz, 2016-12-05 Drawing on theories of legal pluralism this book tests whether and to what extent claims of the modern nation state laws to exclusive dominance over other spheres are tenable and

reassesses the operation of law in society Incorporating a combination of legal theory post modern critique and socio legal analysis of three current jurisdictions in which Muslims play an important role the volume identifies Muslims current socio legal situation and attitudes from different perspectives and reconciles them with modern legal systems in three key countries It analyzes the conflict between the assumptions of modern legal systems and plural legal realities and also examines attempts by modern legal systems to impose official laws in the face of resistance from unofficial Muslim laws and discusses possible responses to the challenge of dynamic Muslim legal pluralism A valuable resource for students researchers and academics with an interest in the areas of Islamic law and politics and the interplay between secular law and religious cultural traditions
