Mirrorshades The Cyberpunk Anthology:

Mirrorshades Bruce Sterling, 1988 Short stories labeled Mirrorshade Neuromanatic Cyberpunk etc by such authors as Greg Bear Pat Cadigan William Gibson Rudy Rucker Lewis Shiner John Shirley and others *Mirrorshades* Bruce Sterling, 1988 **Mirrorshades-Cyberpunk Anthology** HarperCollins Publishers Limited, 1999-09-01 [The Routledge Companion to Cyberpunk Culture](#) Anna McFarlane, Lars Schmeink, Graham Murphy, 2019-11-28 In this companion an international range of contributors examine the cultural formation of cyberpunk from micro level analyses of example texts to macro level debates of movements providing readers with snapshots of cyberpunk culture and also cyberpunk as culture With technology seamlessly integrated into our lives and our selves and social systems veering towards globalization and corporatization cyberpunk has become a ubiquitous cultural formation that dominates our twenty first century techno digital landscapes The Routledge Companion to Cyberpunk Culture traces cyberpunk through its historical developments as a literary science fiction form to its spread into other media such as comics film television and video games Moreover seeing cyberpunk as a general cultural practice the Companion provides insights into photography music fashion and activism Cyberpunk as the chapters presented here argue is integrated with other critical theoretical tenets of our times such as posthumanism the Anthropocene animality and empire And lastly cyberpunk is a vehicle that lends itself to the rise of new futurisms occupying a variety of positions in our regionally diverse reality and thus linking as much as differentiating our perspectives on a globalized technoscientific world With original entries that engage cyberpunk s diverse angles and its proliferation in our life worlds this critical reference will be of significant interest to humanities students and scholars of media cultural studies literature and beyond *Science Fact and Science Fiction* Brian M. Stableford, 2006 Publisher description **Cyberpunk Women, Feminism and Science Fiction** Carlen Lavigne, 2013-02-07 This analysis of cyberpunk science fiction written between 1981 and 2003 positions women s cyberpunk in the larger cultural discussion of feminist issues It traces the origins of the genre reviews the critical reactions and outlines the ways in which women s cyberpunk advances points of view that are specifically feminist Novels are examined within their cultural contexts their content is compared to broader controversies within contemporary feminism and their themes are revealed as reflections of feminist discourse around the turn of the 21st century Chapters cover topics such as globalization virtual reality cyborg culture environmentalism religion motherhood and queer rights Interviews with feminist cyberpunk authors are provided revealing both their motivations for writing and their experiences with fans The study treats feminist cyberpunk as a unique vehicle for examining contemporary women s issues and analyzes feminist science fiction as a complex source of political ideas *Cyberpunk in "The Matrix"* Jan Riepe, 2005-05-06 Seminar paper from the year 2003 in the subject American Studies Culture and Applied Geography grade 1 3 University of Freiburg Englisch Seminar course Proseminar American Film Genre language English abstract It is the aim of this paper to show that The Matrix written and directed by Larry and

Andy Wachowski is a development of cyberpunk. On the one hand, The Matrix shares many basic ideas, typical features, and motifs with cyberpunk as we know it from the works of William Gibson, Bruce Sterling, and other cyberpunk writers of the 1980s. But on the other hand, The Matrix's cyberpunk also differs very much from other cyberpunk works. It not only differs in many cases, The Matrix pushes ideas and motifs of cyberpunk further, taking them to another level. In this paper, I will analyze themes, topics, and motifs of cyberpunk in The Matrix, the way they are used, and most important, the purpose behind cyberpunk in the film. I will look at how and for what effect cyberpunk is used in The Matrix. In the introduction to his cyberpunk anthology *Mirrorshades*, Bruce Sterling writes that central themes of cyberpunk are the theme of body invasion, prosthetic limbs, implanted circuitry, cosmetic surgery, genetic alteration, and the theme of mind invasion, brain-computer interfaces, artificial intelligence. 1 Sterling writes about literature, but it makes sense to use his characteristics of cyberpunk in this paper because The Matrix is a work of literature. 2 has careful attention to symbolic detail throughout the movie, and the script went through seventeen rewrites. 3 The themes, topics, and motifs I will examine in the film are cyber system and punk, computer brain interface, the use of mirrors and mirrorshades, and rain. I will look at the film's dystopian setting and analyze the topic of technophobia, which is one of the effects of the technological dystopia. Writing about cyberpunk, it is useful to have a look at the term itself, so the following two quotations should provide a definition or at least an explanation of the concept of cyberpunk. 1 Bruce Sterling, Preface *Mirrorshades: The Cyberpunk Anthology*, Bruce Sterling ed., Paladin Grafton Books, 1986, repr. Glasgow, 1990, p. xi. 2 Mark Crosby, *Reflections Upon The Matrix Film Philosophy*, 31, 1999. 24 February 2003, <http://www.filmphilosophy.com/vol3/1999/n31crosby>. 3 Steve Kellmeyer, *The New Gnostic Gospel*, 24 February 2003, http://www.envoymagazine.com/backissues/4_5/coverstory.html.

Routledge Encyclopedia of Narrative Theory David Herman, Manfred Jahn, Marie-Laure Ryan, 2010-06-10. The past several decades have seen an explosion of interest in narrative, with this multifaceted object of inquiry becoming a central concern in a wide range of disciplinary fields and research contexts. As accounts of what happened to particular people in particular circumstances, and with specific consequences, stories have come to be viewed as a basic human strategy for coming to terms with time, process, and change. However, the very predominance of narrative as a focus of interest across multiple disciplines makes it imperative for scholars, teachers, and students to have access to a comprehensive reference resource.
