*Mothertime* William J. Wood, Jr., William J. Wood, 2004 The experiment has begun Erotamine is a neurotransmitter that literally transports the subject back to the womb back to a mother's all encompassing love Can erotamine reverse criminality Can it stop wars The U S Department of Justice among others wants to know And they'll stop at nothing to find out Jonas Watchman is a CEO Harold Connors is a pediatric heart surgeon They have two things in common they have broken the law and they have made a deal to get out of jail At precisely 10 00 pm every evening Jonas and Hal get higher than any junkie could imagine Is it God's voice in their ears This might be love in liquid form but watch out for the side effects News reporter Rebecca Morningstar is a long way from her home on the Nez Perce reservation The big city success she has worked for to make her mother proud is eating a hole inside her She faces her first big assignment with pride and fear An execution a very strange execution Now she must find out why a condemned man in the final seconds of his life could speak to her in a tongue that no white man knows God has a gift for you Her search for an answer will take her even further from the Idaho skies of her home Now her experiment has begun

stories but it led Alice Walker to complain that her heritage had been stolen Mark Twain listened to African American storytellers as a child His use of oral dialects then impacts how Ralph Ellison and William Faulkner employ oral storytelling and how Toni Morrison later writes in response to Faulkner The interactions are not linear not a chain of influence but a network of interactions borrowings and revisions Ford s pairings lead to new readings that reveal how the writers employ similar strategies in their narratives due in part to shared historical context While Zora Neale Hurston and William Faulkner for example use oral storytelling in the 1930s to examine the fear of racial mixing Ellen Douglas and Ernest Gaines use it in the 1970s to build bridges between the races Exploring the cultural crossing that occurs in the use of oral storytelling Ford offers a different view of this common strategy in southern narrative and a new perspective on how culture is shared
