New Directions In Old Age Politics:

New Directions in Old-Age Policies Janie S. Steckenrider, Tonya M. Parrott, 1998-09-11 This book explores the changed political environment in the United States and what it means for the policies and programs benefiting the elderly and their families It includes chapters written by distinguished contributors such as Fernando Torres Gil Assistant Secretary for Aging Clinton Administration and discusses specific realistic policy options for the future New Directions in Old Age Policies suggests that old age policy in the changed political environment is a paradox of competing agendas individual versus fiscal responsibility in policy choices doing more for the elderly and their families with fewer public resources and prioritizing the status quo or change in policy decisions for the elderly The New Politics of Old Age Policy Robert B. Hudson, 2005 The successor to Robert Hudson's *The Future of Age Based Public Policy* this volume offers a variety of perspectives on these policy issues that directly effect America's aging population particularly the relative merits of using chronological age to determine eligibility for government programs *New Directions in Religion and Aging* David B. Oliver, 1987 In this stimulating and timely book experts examine the critical issues that will face professionals in the religious community as they work with the elderly in the coming decades They look at the directions religious communities must be prepared to take and the problems to which they must respond if they are to be effective in the years ahead Topics include responding to poverty and aging suicide among the elderly connecting gerontological training and religious professionals and much more **The politics of old age** Martha Doyle, 2015-02-01 The politics of old age in the twenty first century is contentious encompassing ideological debates about the rights and welfare entitlements of individuals in later life An important aspect is the manner in which older people and their representative groups are given the opportunity to articulate their interests in the policy making process Drawing upon key literature in political science social gerontology and cultural sociology The politics of old age explores the relationship between ageing politics and representation It reveals the complexity of older people's representation and how the power the organisations exercise their legitimacy and existence remain highly contingent on government policy design political opportunity structures and the prevailing cultural and socioeconomic milieu This book is essential reading for policymakers and organisations interested in ageing policy and the political process and for students of ageing social policy and political sociology **New Directions in Israeli Media** Yaron Peleg, 2025-05-06 A comprehensive analysis of the major trends and developments in contemporary Israeli media eTransformation in Governance: New Directions in Government and Politics Malkia, Matti, Anttiroiko, Ari-Veikko, Savolainen, Reijo, 2003-07-01 eTransformation in Governance New Directions in Government and Politics is about transformation in government and governance due to the information society development The book provides conceptual clarification of the e transformation in governance and presents empirical findings on the recent developments in Western countries The book provides innovative and fresh views to recent developments and practices of e governance

Anthropocene Encounters: New Directions in Green Political Thinking Frank Biermann, Eva Löwbrand, 2019-02-07 Coined barely two decades ago the Anthropocene has become one of the most influential and controversial terms in environmental policy Yet it remains an ambivalent and contested formulation giving rise to a multitude of unexpected and often uncomfortable conversations This book traces in detail a broad variety of such Anthropocene encounters in science philosophy and literary fiction It asks what it means to think green in a time when nature no longer offers a stable backdrop to political analysis Do familiar political categories and concepts such as democracy justice power and time hold when confronted with a world radically transformed by humans The book responds by inviting more radical political thought plural forms of engagement and extended ethical commitments making it a fascinating and timely volume for graduate students and researchers working in earth system governance environmental politics and studies of the Anthropocene This is one of a series of publications associated with the Earth System Governance Project For more publications see www.cambridge.org/earth-system-governance

Learning to Be Old Margaret Cruikshank, 2013-02-14 This work examines what it means to grow old in America today The book questions social myths and fears about aging sickness and the other social roles of the elderly the over medicalization of many older people and ageism Here the author proposes alternatives to the ways aging is usually understood in both popular culture and mainstream gerontology She does not propose the ideas of successful aging or productive aging but more the idea of learning how to age Featuring new research and analysis the third edition of this text demonstrates more thoroughly than the previous editions that aging is socially constructed The book focuses on the differences in aging for women and men as well as for people in different socioeconomic groups The author is able to put aging in a broad context that not only focuses on how aging affects women but men as well Key updates in the third edition include changes in the health care system changes in how long older Americans are working especially given the impact of the recession and new material on the brain and mind body interconnections The author challenges conventional ideas about aging and brings forth some new ideas surrounding aging in America today
