Energy Research Abstracts ,1979 **Rock Products and Building Materials** ,1914 Twentieth-Century Building Materials Thomas C. Jester,2014-08-01 Over the concluding decades of the twentieth century the historic preservation community increasingly turned its attention to modern buildings including bungalows from the 1930s gas stations and diners from the 1940s and office buildings and architectural homes from the 1950s Conservation efforts however were often hampered by a lack of technical information about the products used in these structures and to fill this gap Twentieth Century Building Materials was developed by the U S Department of the Interior s National Park Service and first published in 1995 Now this invaluable guide is being reissued with a new preface by the book s original editor With more than 250 illustrations including a full color photographic essay the volume remains an indispensable reference on the history and conservation of modern building materials Thirty seven essays written by leading experts offer insights into the history manufacturing processes and uses of a wide range of materials including glass block aluminum plywood linoleum and gypsum board Readers will also learn about how these materials perform over time and discover valuable conservation and repair techniques Bibliographies and sources for further research complete the volume The book is intended for a wide range of conservation professionals including architects engineers conservators and material scientists engaged in the conservation of modern buildings as well as scholars in related disciplines The Flammability of Coal Dust-air Mixtures Martin Hertzberg,Kenneth L. Cashdollar,John J. Opferman,United States. Bureau of Mines,1979 **Building Networks: Exchange of Knowledge, Ideas and Materials in Medieval and Post-Medieval Europe** Jeroen Bouwmeester,Laura Patrick,Duncan Berryman,2024-02-19 This book aims to explore different aspects of networks in relation to the archaeology of buildings It is divided into three major themes the trade in materials the exchange of knowledge of techniques and or materials and the exchange of style Within each of these themes two primary aspects are addressed notably who were the actors and how did the network function In medieval and post medieval Europe the development of buildings of style and the use of material

cannot be understood from a local regional or even national perspective Not only were the borders different than in modern day Europe but the contacts of inhabitants also transcended local and regional boundaries This volume describes the continuous exchange of aesthetic ideals technological developments and building materials during this period This volume is a culmination of four years of sessions held at the European Archaeology Association EAA conference between 2016 2020 on the topic It is of interest to archaeologists architects and scholars of built heritage *Selected Library Acquisitions* United States.
