*The Jet Race and the Second World War* S. Mike Pavelec, 2007-02-28 In the 1930s as nations braced for war the German military build up caught Britain and the United States off guard particularly in aviation technology The unending quest for speed resulted in the need for radical alternatives to piston engines In Germany Dr Hans von Ohain was the first to complete a flight worthy turbojet engine for aircraft It was installed in a Heinkel designed aircraft and the Germans began the jet age on August 27 1939 The Germans led the jet race throughout the war and were the first to produce jet aircraft for combat operations In England the doggedly determined Frank Whittle also developed a turbojet engine but without the support enjoyed by his German counterpart The British came second in the jet race when Whittle s engine powered the Gloster Pioneer on May 15 1941 The Whittle Gloster relationship continued and produced the only Allied combat jet aircraft during the war the Meteor which was relegated to Home Defense in Britain In America General Electric copied the Whittle designs and Bell Aircraft contracted to build the first American jet plane On October 1 1942 a lackluster performance from the Bell Airacomet ushered in the American jet age The Yanks forged ahead and had numerous engine and airframe programs in development by the end of the war But the Germans did it right and did it first while the Allies lagged throughout the war only rising to technological prominence on the ashes of the German defeat Pavelec s analysis of the jet race uncovers all the excitement in the high stakes race to develop effective jet engines for warfare and transport

*Southerner* Craig M. Simpson, 2014-02-01 Wise 1806 76 was extremely active on the Virginia and national political scene from the early 1830s to the mid 1860s drawing popular support because of his projection of hopefulness and energy. Regarded as eccentric, Wise is given in this study an interpretation that finds consistency in his life-long controversial and impulsive behavior. Simpson stresses Wise's ambivalent attitude toward slaves and slave-holding authority and authority figures in Virginia and the United States. **Billie Holiday** Earle Rice, 2012-09-30 Eleanor Fagan rocketed to fame like a shooting star during the two decades spanning 1937 and 1957. She soared to stardom on the wings of a unique voice and songs sung sad. As Billie Holiday she overcame personal crises and racial bigotry to become what many consider to be America's premier jazz vocalist of the twentieth century. Then like a flamed-out meteor she crashed and burned in the throes of alcohol and drug addiction. Lady Day as Billie was known to her friends and admirers joined a handful of jazz musicians who can truly be called legendary. Her voice was one of a kind; her lyrical interpretations intimate and often sensually expressive or disturbingly bitter. She profoundly influenced her fellow musicians not only in jazz but in every other musical genre. Billie's life and legacy are emblematic of both triumph and tragedy. She overcame more than her share of adversities but she could not conquer her urge to self-destruct.

**Torch Singing** Stacy Holman Jones, 2007-07-08 In this innovative book Stacy Holman Jones presents torch singing as a much more complicated phenomenon than the familiar trope of a woman lamenting her victimhood. With an ethnographer's eye she observes the bluesy torch singers asking if they are possibly performing critiques of the very lyrics they sing. From this perspective we see the singer giving expression not only to desire but also to an incipient determination to resist and change. Holman Jones also reveals points of contact in the opposition between spectators and performers: emotion and intellect and love and power. Instead of interpreting the expression of love as a woman's violent mistake as willing deception and passive fate, Holman Jones allows us to hear an active search for hope.
