 industry from the early 1800 s through the post Civil War era Almost from the beginning the United States produced arms in  
 new and radically different ways relying upon machinery to mass produce guns when others still made them by hand  
 Leveraging their technological advantage American gun makers produced guns with interchangeable parts and perfected  
 new types of small arms ranging from revolvers to repeating rifles The federal government s staggering purchases of arms  
 during the Civil War stimulated the development of fast firing breech loading rifles and metal cased ammunition When in  
 1865 it became clear that every country in the world had re equip itself with modern weapons the Americans had an  
 overwhelming head start Salesmen from Remington Winchester Colt and Smith Wesson and from lesser known firms too  
 traveled the world marketing their guns dominating or perhaps even inventing the international arms business American gun  
 makers sold rifles and side arms by the millions and cartridges by the billions to great powers restive colonies and fading  
 empires alike Adding a new element to the unstable global balance of power American gun makers affected the course of  
 history      **Religion and the American Presidency** M. Rozell,G. Whitney,2007-05-14 This volume opens a new avenue
