published account of the massive U S covert intervention in British Guiana between 1953 and 1969 Stephen G Rabe uncovers
a Cold War story of imperialism gender bias and racism When the South American colony now known as Guyana was due to
gain independence from Britain in the 1960s U S officials in the Kennedy and Johnson administrations feared it would
become a communist nation under the leadership of Cheddi Jagan a Marxist who was very popular among the South Asian
mostly Indian majority Although to this day the CIA refuses to confirm or deny involvement Rabe presents evidence that CIA
funding through a program run by the AFL CIO helped foment the labor unrest race riots and general chaos that led to Jagan
s replacement in 1964 The political leader preferred by the United States Forbes Burnham went on to lead a twenty year
dictatorship in which he persecuted the majority Indian population Considering race gender religion and ethnicity along with
traditional approaches to diplomatic history Rabe s analysis of this Cold War tragedy serves as a needed corrective to
interpretations that depict the Cold War as an unsullied U S triumph **Cheddi Jagan and the Politics of Power** Colin A.
Palmer,2010 Informed by the first use of many British U S and Guyanese archival sources Palmer s work details Jagan s rise
