## Notes On Village Architecture In Jordan:

**Notes on village architecture in Jordan** Ammar Khammash, 1986      **Notes on village architecture in Jordan** A. Khammash,      **Bibliography of Art and Architecture in the Islamic World (2 Vol. Set)** Susan Sinclair, C. H. Bleaney, Pablo García Suárez, 2012 Following the tradition and style of the acclaimed Index Islamicus the editors have created this new Bibliography of Art and Architecture in the Islamic World The editors have surveyed and annotated a wide range of books and articles from collected volumes and journals published in all European languages except Turkish between 1906 and 2011 This comprehensive bibliography is an indispensable tool for everyone involved in the study of material culture in Muslim societies      **The Palgrave Handbook of the Hashemite Kingdom of Jordan** P. R. Kumaraswamy, 2019-11-30 This Handbook presents a broad yet nuanced portrait of the Hashemite Kingdom of Jordan its socio political rifts economic challenges foreign policy priorities and historical complexities The Hashemite Kingdom of Jordan has traditionally been an oasis of peace and stability in the ever turbulent Middle East The political ambitions of regional powers often expressed in the form of territorial aggrandisement have followed the Hashemites like an inseparable shadow The scarcity of natural resources especially water has been compounded by the periodic influx of refugees from its neighbours As a result many Arab and non Arab alike have questioned the longevity and survival of Jordan These uncertainties were compounded when the founding ruler King Abdullah I became involved in the nascent Palestinian problem at the end of World War II The annexation of the eastern part of Mandate Palestine or the West Bank in the wake of the 1948 War transformed the Jordanian demography and sowed the seeds of an uneasy relationship with the Palestinian component of its population citizens residents and refugees Though better natural resources and stronger leaders have not ensured political stability in many Arab and non Arab countries Jordan has been an exception Indeed since its formation as an Emirate by the British in 1921 the Kingdom has seen only four rulers a testimony to the sagacity and political foresight of the Hashemites The Hashemites have managed to sustain the semi rentier model primarily through international aid and assistance which in turn inhibits Jordan from pursuing rapid political and economic reforms Though a liberal multi religious and multicultural society Jordan has been hampered by social cleavages especially between the tribal population and the forces of modernization

*Excavations at Tall Jawa, Jordan* James R. Battenfield, Susan Ellis, Peter R.W. regions of the peninsula with comparative material from others Having become aware of the depth in time of Arab tribal structures the authors have developed a view of Arabic tribal discourse where tribe is seen as essentially an identity that confers access to a social structure and its processes

**The Archaeology of Capitalism in Colonial Contexts** Sarah K. Croucher, Lindsay Weiss, 2011-08-10 The Archaeology of Capitalism in Colonial Contexts Postcolonial Historical Archaeologies explores the complex interplay of colonial and capital formations throughout the modern world The authors present a critical approach to this topic trying to shift discourses in the theoretical framework of historical archaeology of capitalism and colonialism through the use of postcolonial theory This work does not suggest a new theoretical framework as such but rather suggests the importance of revising key theoretical terms employed within historical archaeology arguing for new engagements with postcolonial theory of relevance to all historical archaeologists as the field de centers from its traditional locations Examining case studies from North America South America the Caribbean Africa Australia the Middle East and Europe the chapters offer an unusually broad ranging geography of historical archaeology with each focused on the interplay between the particularisms of colonial structures and the development of capitalism and wider theoretical discussions Every author also draws attention to the ramifications of their case studies in the contemporary world With its cohesive theoretical framework this volume is a key resource for those interested in decolonizing historical archaeology in theory and praxis and for those interested in the development of modern global dynamics

Cultural Heritage Hani Hayajneh ,2023 Human heritage is an endless mine of knowledge skills ethos and accomplishments which visualize and examine the power of human creativity and innovation throughout the history The contributions cast an insight into the human psyche to perceive its Weltanschauung and its way of thinking and making artefacts associated with knowledge existence and identity in the context of other existing systems in the world They demonstrate the diversity of topics as well as the state of the art of interdisciplinary approaches that participants of the Humboldt Kolleg use in their research on cultural heritage and confirm once again that the strengths of the Alexander von Humboldt Network should be celebrated and honoured The present volume invites us to seek more novel research approaches that aim towards an understanding of the complex nature of human inheritance

Household Archaeology in Ancient Israel and Beyond Assaf Yasur-Landau, Jennie R. Ebeling, Laura B. Mazow, 2013-02-06 Despite the large number of well preserved domestic contexts in Bronze and Iron Age sites household archaeology has not been a common approach to studying the material culture of Ancient Israel Until recently the dictates of Biblical Archaeology led to a narrow set of questions that ignored issues such as gender status and production within the household The present volume which grew out of a session at the 2008 Annual Meeting of the American Schools of Oriental Research attempts to redress this issue The seventeen papers herein reflect innovative viewpoints on the theory and praxis of household archaeology in this region The next step in household research is presented here with the use of tailor made data collection strategies designed to answer specific questions posed by household archaeology The neglect of households and

the archaeology of the activities of its members are ambitiously attended to in this volume Its exceptional breadth of various modes of inquiry coupled with the application thereof justifies the household as a topic of discussion I would highly recommend this book for institutions libraries scholars and students interested in any aspect of daily life in the southern Levant and I very much look forward to the future research projects it will inspire Cynthia Shafer Elliot William Jessup University as a whole the work is impressive and most contributions are commendable for their sophistication in engaging interdisciplinary research in order to understand the nature and function of households in ancient Israel and surrounding areas Carol Meyers Duke University

Ireland,1998-12-01 Seemingly contradictory ideas of privacy and community dominate Ottoman cities While houses are internally divided to guard female modesty behind a frontage studded with peep holes streets in cities like Amasya are often bridged by first floor passageways between different houses This book contains 17 papers by architects and archaeologists looking at how the Ottoman house was structured how it has varied over time and space and how surviving examples are faring in a world of breeze block construction Although the examples discussed are all Near Eastern and mostly from Turkey the revelations this book contains about structuring principles will make it a valuable companion to understanding architectural relics from all over the Ottoman Empire Muqarnas Gülru Necipoğlu,1998-10-01 **Life in a Cave in**

**Petra with the Bdoul** Judith McKenzie,2022-09-15 From 1981 until 1986 the archaeologist Judith McKenzie then a graduate student at the University of Sydney traveled to the ancient site of Petra in Jordan living in a cave there for extended periods in order to survey and measure architectural moldings on the rock cut monuments It was a critical time in the history of Petra where for centuries its local inhabitants known as the Bdoul had lived and worked But that tradition was coming to a close In 1985 the Bdoul began a move to the nearby village of Umm Sayhoun as directed by the Jordanian government This first hand account of life in a cave at Petra based on diaries Judith kept at the time she lived among the Bdoul is therefore important as a record of a lifestyle now largely vanished As she writes in her introduction I spent so much time socializing with the Bdoul I came to observe many aspects of Bdoul life in a series of visits over three main field seasons As women we had access to the world of young girls and women which men from outside did not while we were also sometimes treated as honorary men This memoir thus stands as a reminder of life at Petra before the arrival of modern day tourism at the site But this book is not only a memoir Observations are made on the ways in which the Bdoul have adapted to their new environment Changes at the site that have taken place since 1981 because of weathering and erosion are recorded through comparisons between photographs taken forty years ago and more recent images Ramifications of the expansion of the tourist industry at Petra in the 21st century are also considered Life in a Cave in Petra with the Bdoul 1981 1986 is therefore an important and essential volume on the archaeology and history of one of the best known ancient sites in the world **Frontiers of the**
