Nothing In Itself Complexions Of Fashion:

Nothing in Itself Herbert Blau, 1999 What Herbert Blau suggests in *Nothing in Itself* is that fashion itself today has been anticipating and redefining in the dazzle on the runway or even in ready to wear the terms in which it is critiqued while sometimes giving the impression that it is inseparable from critique in short there is little to be said of fashion that is not somehow visible in fashion though even in the mainstream we may call it antifashion Which is all the more reason to look at the clothes The book does so copiously with a fastidious eye to style as if nothing could be said of a garment no appropriate fabric of thought without the felt sensation

Fashion Christopher Breward, 2003-04-24 This lively survey of 150 years of fashion covers everything from Haute Couture to the High Street From Coco Chanel to Alexander McQueen Breward explores fashion as a cultural phenomenon Topics include fashion in film the world of Vogue and advertising and the use of fashion to create identity from the Flapper to the New Look and Dandy to Punk

The Performance of Self Susan Crane, 2012-10-09 Medieval courtiers defined themselves in ceremonies and rituals Tournaments Maying interludes charivaris and masking invited the English and French nobility to assert their identities in gesture and costume as well as in speech These events presumed that performance makes a self in contrast to the modern belief that identity precedes social performance and indeed that performance falsifies the true inner self Susan Crane resists the longstanding convictions that medieval rituals were trivial affairs and that personal identity remained unarticulated until a later period Focusing on England and France during the Hundred Years War Crane draws on wardrobe accounts manuscript illuminations chronicles archaeological evidence and literature to recover the material as well as the verbal constructions of identity She seeks intersections between theories of practice and performance that explain how appearances and language connect when courtiers dress as wild men to interrupt a wedding feast when knights choose crests and badges to supplement their coats of arms and when Joan of Arc cross dresses for the court of inquisition after her capture

The Aesthetics of Nostalgia TV Alex Bevan, 2019-02-07 The Aesthetics of Nostalgia TV explores the aesthetic politics of nostalgia for 1950s and 60s America on contemporary television Specifically it looks at how nostalgic TV production design shapes and is shaped by larger historical discourses on gender and technological change and America's perceived decline as a global power Alex Bevan argues that the aesthetics of nostalgic TV tell stories of their own about historical decline and progress and the place of the baby boomer television suburb in American national memory She contests theories on nostalgia that see it as stagnating regressive or a reversion to outdated gender and racial politics and the technophobic longing for a bygone era and instead argues nostalgia is an important form of historical memory and vehicle for negotiating periods of historical transition The book addresses how and why the shows construct the boomer era as a placeholder for gender racial technological and declensionist discourses of the present The book uses *Mad Men* AMC 2007 2015 *Ugly Betty* ABC 2006 2010 *Desperate Housewives* ABC 2004 2012 and film remakes of 1950s and 60s family sitcoms as primary case studies

Fashion and Art Adam Geczy, Vicki Karaminas, 2013-08-15 For at least two centuries fashion and art have maintained a competitive love hate relationship Both fashion and art construct imaginary worlds and use a language of style to invigorate beliefs perceptions and ideas Until now the crossovers of fashion and art have received only scattered treatment and suffered from a dearth of theorization As an attempt to theorize the area this collection of new and updated essays is the most well rounded and authoritative to date Some of the world's foremost scholars in the field are assembled here to explore the art fashion nexus in numerous ways from aesthetics and performance to masquerade and media Original and inspiring this book will not only secure art fashion as a discrete area of study but also suggest new critical pathways for exploring their continuing cross pollination Fashion and Art is essential reading for students and scholars of fashion art history and theory cultural studies and related fields

Faulkner's Inheritance Joseph R. Urgo, Ann J. Abadie, 2007 Essays by Susan V Donaldson Lael Gold Adam Gussow Martin Kreiswirth Jay Parini Noel Polk Judith L Sensibar Jon Smith and Priscilla Wald William Faulkner once said that the writer collects his material all his life from everything he reads from everything he listens to everything he sees and he stores that away in sort of a filing cabinet in my case it's not anything near as neat as a filing case it's more like a junk box Faulkner tended to be quite casual about his influences For example he referred to the South as not very important to me I just happen to know it and don't have time in one life to learn another one and write at the same time His Christian background according to him was simply another tool he might pick up on one of his visits to the lumber room that would help him tell a story Sometimes he claimed he never read James Joyce's Ulysses or had never heard of Thomas Mann writers he would elsewhere declare as the two great men in my time Sometimes he expressed annoyance at readers who found esoteric theory in his fiction when all he wanted them to find was Faulkner I have never read Freud Neither did Shakespeare I doubt if Melville did either and I'm sure Moby Dick didn't Nevertheless Faulkner's life was rich in what he did see and read and he seems to have remembered all of it and put it to use in his fiction Faulkner's Inheritance is a collection of essays that examines the influences on Faulkner's fiction including his own family

Time in Fashion Caroline Evans, Alessandra Vaccari, 2020-07-09 Few phenomena embody the notion of time as well as fashion Fast moving and rooted in the now it s constantly creating its own past through the process of rapid style change Uniquely poised between the past and the future fashion s relationship with time is unorthodox Rather than considering time in the conventional sense this anthology explores three alternative ways to think about fashion and time the first identifies the seasonal nature of fashion as an industry and shows how this has impacted on workers and wearers alike The second looks at fashion design as a ceaseless process of adaptation reconstruction and recombination of motifs in which nostalgia and revivals play their part The third construes fashion s imaginary with its capacity for fantasy and myth making as a form of alternate history that asks what if Within this framework key classic texts are juxtaposed with lesser known ones in an interdisciplinary approach that includes philosophy history literature media and fashion design ranging from the 18th century to the present It will be of interest to anyone wishing to understand one of the most complex yet inescapable aspects of fashion its relationship to time and will be a critical resource for undergraduate and postgraduate students in the humanities and all those interested in fashion in all its creative commercial and cultural aspects **Austen's Unbecoming**
