

A photograph of a dirt road winding through a forest. The trees are covered in autumn foliage, with shades of orange, yellow, and brown. The road leads towards a bright light at the end of the path, creating a sense of depth and perspective. The overall mood is serene and contemplative.

Nothing is made, nothing  
disappears. The same changes, at  
the same places, never stopping.

*Essay on the Historical Failure of Democracy in the 21st Century* Jesús G. Maestro,2024-01-06 The democracy of the late 20th century has been more beneficial to the friends of commerce than to the democrats Its advantages and successes have turned it into a political regime that is now anachronistic and untimely Democracy is the name inherited from a past imperfect and recent which used to manage our way of life Today that life of ours is managed by commerce and the friends of commerce If politics is the organization of power that is to say the administration of freedom the rights of the democratic citizen are moving away from the legal framework of the States With the historical failure of democracy in the 21st century three realities with which humans have lived since the Renaissance also fail the modern State political freedom and civil laws A post democratic society is one in which the State fades away political freedom disintegrates and civil laws fit onto a complaint form because the rights of the citizen are the rights of the consumer in the hands of the friends of commerce which is to say nothing People have not yet internalized the failure of democracy The market does not want democrats it wants consumers

*Outcome of Philosophy* Joseph Dietzgen, 2021-04-26 In *The Positive Outcome of Philosophy* Joseph Dietzgen presents a profound exploration of the intersection between thought and reality emphasizing the empirical roots of human experience. Written in a distinctive blend of philosophical inquiry and accessible prose Dietzgen critiques the traditional metaphysics of his time while advocating for a materialist understanding of the world. This book emerges against the backdrop of 19th century German philosophy challenging its idealist traditions and incorporating elements of dialectical materialism ultimately aiming to illuminate the role of human agency in shaping knowledge and society. Joseph Dietzgen a self taught philosopher and a significant figure in the development of Marxist thought drew from his working class background and experiences as a laborer to inform his philosophical perspectives. His engagement with the ideas of contemporaries such as Marx and Engels reflects his commitment to a practical philosophy that informs social consciousness. This personal journey of understanding informed his critique of abstract reasoning positioning him as a vital voice in the discourse of socialist philosophy and materialist epistemology. *The Positive Outcome of Philosophy* is a must read for those interested in the foundations of dialectical materialism and the evolution of philosophical thought. Dietzgen's accessible treatment of complex ideas invites readers to reflect critically on the nature of knowledge and the significance of material reality making it an essential text for students of philosophy and social theory alike.
