Jane Austen's Textual Lives Kathryn Sutherland, 2005-10-06 Through three intertwined histories Jane Austen's Textual Lives offers a new way of approaching and reading a very familiar author. One is a history of the transmission and transformation of Jane Austen through manuscripts, critical editions, biographies, and adaptations; a second provides a conspectus of the development of English Studies as a discipline in which the original and primary place of textual criticism is recovered; and a third reviews the role of Oxford University Press in shaping a canon of English texts in the twentieth century. Jane Austen can be discovered in all three. Since her rise to celebrity status at the end of the nineteenth century, Jane Austen has occupied a position within English-speaking culture that is both popular and canonical, accessible and complexly inaccessible, fixed and certain yet wonderfully amenable to shifts of sensibility and cultural assumptions. The implied contradiction was represented in the early twentieth century by, on the one hand, the Austen family's continued management, censorship, and sentimental marketing of the sweet lady novelist of the Hampshire countryside, and on the other, by R. W. Chapman's 1923 Clarendon Press edition of the Novels of Jane Austen, which subjected her texts to the kind of scholarly probing reserved till then for classical Greek and Roman authors, obscured by centuries of attrition. It was to be almost fifty years before the Clarendon Press considered it necessary to recalibrate the reputation of another popular English novelist in this way. Beginning with specific encounters with three kinds of textual work and the problems, clues, or challenges to interpretation they continue to present, Kathryn Sutherland goes on to consider the absence of a satisfactory critical theory of biography that can help us address the partial life and ends with a discussion of the screen adaptations through which the texts continue to live on. Throughout, Jane Austen's textual identities provide a means to explore the wider issue of what text is and to argue the importance of understanding textual space as itself a powerful agent, established only by recourse to further interpretations and fictions.

The Hero's Life Choice. Studies on Heracles at the Crossroads, the Judgement of Paris, and Their Reception Malcolm Davies, 2023-09-04 Two allegorical ancient Greek stories about a young hero's career-defining choice are shown in this book to have later been appropriated to radically differing effects. E.g. a male's choice between female personifications can morph into a female's choice between the same or between various male personifications. Never before have so many instances of this process from art, literature, music, even landscape gardening been culled. Illustrations, mainly colour, many brought into this context for the first time, are conveniently incorporated into the text, thus mimetically mirroring a central theme of the book: the process of visualising the verbal, verbalising the visual.

Jane Austen: Bicentenary Essays John Halperin, 1975-10-31 This book was first published in 1975, the bicentenary of Jane Austen's birth. Though she has long been recognized as one of the major English novelists, her reputation was established relatively late and has withstood periods of neglect and controversy. The present volume brings together nineteen essays that marked the bicentenary and, in doing so, reflected the critical attitudes which some of the twentieth century's most influential

scholars have entertained towards the novelist These essays range from nineteenth century reactions to the novels and to the novelist herself through twentieth century criticism of the individual novels to considerations of the novelist's reputation abroad This book will be of interest both to scholars and students of eighteenth and nineteenth century fiction and also to the general reader of Jane Austen's novels

Bad Behavior Martin Wechselblatt, 1998 Bad Behavior is concerned with the reasons so many readers and critics of Johnson have been led to regularly subsume into the monumental precedent of Johnson the sage the material conditions of modern authority expressed by self reflections of Johnson the hack Dr Wechselblatt argues that Johnson's double self construction as at once high cultural sage and popular hack dramatizes tensions between learned and commercial cultures in the emerging public sphere of contemporary civil society As Johnson was acutely aware the great paradox of cultural criticism is that it depends for its authority on the very culture it criticizes For this reason it is particularly useful to read Johnson through his critics to re configure from the directions criticism has taken criticism's own conditions of possibility Bad Behavior investigates the critical reduction of Johnson's discourse to its maxims and the relation of this critical practice to the peculiarly modern identification felt by fans toward celebrities

The New Poet Richard Danson Brown, 1999-01-01 This gracefully written and well thought out study deals with a neglected collection of poems by Spenser which was issued in 1591 at the height of his career While there has been a good deal written in recent years on two of the poems in the collection Mother Hubbard's Tale and Muiopotmos Brown innovatively addresses the collection in its entirety He urges us to see it as a planned whole with a consistent design on the reader he fully acknowledges and even brings out further the heterogeneity of the collection but he examines it nevertheless as a sustained reflection on the nature of poetry and the auspices for writing in a modern world distancing itself from the traditions of the immediate past The strength of this work lies both in the originality of its project and in the precision and enterprise of the close reading that informs its argument Interest in the concern of Spenser's poetry with the nature of poetry is in the current critical mainstream but here the attentiveness is both unusually focused and unusually sustained Brown garners more than would be expected from the translations in the Complaints while at the same time including striking and individual chapters on the better known Mother Hubbard's Tale and Muiopotmos he advances understanding of these extremely subtle texts and fully justifies his wider approach to the collection as a whole Arguing that Spenser's relationship to literary tradition is more complex than is often thought Brown suggests that Spenser was a self conscious innovator whose gradual move away from traditional poetics is exhibited by the different texts in the Complaints He further suggests that the Complaints are a poetics in practice which progress from traditional ideas of poetry to a new poetry that emerges through Spenser's transformation of traditional complaint

Johnson and Boswell John B. Radner, 2012-01-01 In this book John Radner examines the fluctuating close and complex friendship enjoyed by Samuel Johnson and James Boswell from the day they met in 1763 to the day when Boswell

published his monumental *Life of Johnson* Drawing on everything Johnson and Boswell wrote to and about the other this book charts the psychological currents that flowed between them as they scripted and directed their time together questioned and advised confided and held back It explores the key longings and shifting tensions that distinguished this from each man's other long term friendships while it tracks in detail how Johnson and Boswell brought each other to life challenged and confirmed each other and used their deepening friendship to define and assess themselves It tells a story that reaches through its specificity into the dynamics of most sustained friendships with their breaks and reconnections their silences and fresh intimacies their continuities and transformations

Celestial Aspirations Philip Hardie, 2022-03-01 A unique look at how classical notions of ascent and flight preoccupied early modern British writers and artists Between the late sixteenth century and early nineteenth century the British imagination poetic political intellectual spiritual and religious displayed a pronounced fascination with images of ascent and flight to the heavens *Celestial Aspirations* explores how British literature and art during that period exploited classical representations of these soaring themes through philosophical scientific and poetic flights of the mind the ascension of the disembodied soul and the celestial glorification of the ruler From textual reachings for the heavens in Spenser Marlowe Shakespeare Donne and Cowley to the ceiling paintings of Rubens Verrio and Thornhill Philip Hardie focuses on the ways that the history ideologies and aesthetics of the postclassical world received and transformed the ideas of antiquity In England narratives of ascent appear on the grandest scale in Milton's *Paradise Lost* an epic built around a Christian plot of falling and rising and one of the most intensely classicizing works of English poetry Examining the reception of flight up to the Romanticism of Wordsworth and Tennyson Hardie considers the Whig sublime as well as the works of Alexander Pope and Edward Young Throughout he looks at motivations both public and private for aspiring to the heavens as a reward for political and military achievement on the one hand and as a goal of individual intellectual and spiritual exertion on the other *Celestial Aspirations* offers an intriguing look at how creative minds reworked ancient visions of time and space in the early modern era
