The Story of French Jean-Benoît Nadeau, Julie Barlow, 2008-01-08 Why does everything sound better if it's said in French That fascination is at the heart of The Story of French the first history of one of the most beautiful languages in the world that was at one time the pre-eminent language of literature science and diplomacy In a captivating narrative that spans the ages from Charlemagne to Cirque du Soleil Jean-Benoît Nadeau and Julie Barlow unravel the mysteries of a language that has maintained its global influence despite the rise of English As in any good story The Story of French has spectacular failures unexpected successes and bears traces of some of history's greatest figures the tenacity of William the Conqueror the staunchness of Cardinal Richelieu and the endurance of the Lewis and Clark expedition Through this colorful history Nadeau and Barlow illustrate how French acquired its own peculiar culture revealing how the culture of the language spread among francophones the world over and yet remains curiously centered in Paris In fact French is not only thriving it still has a surprisingly strong influence on other languages As lively as it is fascinating The Story of French challenges long-held assumptions about French and shows why it is still the world's other global language

The Story of French Jean-Benoît Nadeau, Julie Barlow, 2010-05-28 A fascinating exploration of the historical and cultural development of the French language from the bestselling authors of Sixty Million Frenchmen Can't Be Wrong Imagine a language that is watched over by a group of forty Immortals a language with rules so complex that few people ever completely master it whose status as the world's lingua franca has been declining for two centuries whose use in global institutions is waning and whose speakers are so insecure they pass laws banning the use of other languages and spend millions of taxpayers' dollars to make sure it gets used in literature music and film Now imagine a language that is second only to English for the number of countries where it is spoken officially surpassing both Spanish or Arabic a language that is the official tongue of two G7 countries and three European nations that is employed alongside English in most international institutions and that is the number two choice of language students across the planet a language with two million teachers and 100 million students worldwide and whose number of speakers has tripled in the last

The Familiar Enemy Ardis Butterfield, 2009-12-10 *The Familiar Enemy* re examines the linguistic literary and cultural identities of England and France within the context of the Hundred Years War During this war two profoundly intertwined peoples developed complex

strategies for expressing their aggressively intimate relationship This special connection between the English and the French has endured into the modern period as a model for Western nationhood Ardis Butterfield reassesses the concept of nation in this period through a wide ranging discussion of writing produced in war truce or exile from the thirteenth to the fifteenth century concluding with reflections on the retrospective views of this conflict created by the trials of Jeanne d Arc and by Shakespeare s Henry V She considers authors writing in French Anglo Norman English and the comic tradition of Anglo French jargon including Machaut Deschamps Froissart Chaucer Gower Charles d Orl ans as well as many lesser known or anonymous works Traditionally Chaucer has been seen as a quintessentially English author This book argues that he needs to be resituated within the deeply francophone context not only of England but the wider multilingual cultural geography of medieval Europe It thus suggests that a modern understanding of what English might have meant in the fourteenth century cannot be separated from French and that this has far reaching implications both for our understanding of English and the English and of French and the French

The Golden Mean of Languages Alisa van de Haar, 2019-09-02 In *The Golden Mean of Languages* Alisa van de Haar sheds new light on the debates regarding the form and status of the vernacular in the early modern Low Countries where both Dutch and French were local tongues The fascination with the history grammar spelling and vocabulary of Dutch and French has been studied mainly from monolingual perspectives tracing the development towards modern Dutch or French Van de Haar shows that the discussions on these languages were rooted in multilingual environments in particular in French schools Calvinist churches printing houses and chambers of rhetoric The proposals that were formulated there to forge Dutch and French into useful forms were not directed solely at uniformization but were much more diverse
