Zembo, 2024-12-20 In 1778 George Washington Philip Schuyler army officers and New York officials began planning invasions against Iroquoia the homeland of the Haudenosaunee and several other allied Indigenous nations This invasion was one of the largest American offensives of the Revolutionary War curated to punish the Haudenosaunee for raids against frontier settlements in New York and Pennsylvania However the resulting 1779 campaigns of Goose Van Schaick Daniel Brodhead and Generals John Sullivan and James Clinton were not simple retaliation Clearing Iroquoia New York's Land Grab in the 1779 Campaigns of the American Revolution by Travis M Bowman and Matthew A Zembo critically examines archival materials from these campaigns to investigate the driving force behind the campaigns removal Through their research Bowman and Zembo explore how colonial leaders ignored peace efforts and how George Washington ordered his officers to do the same prioritizing the destruction of Iroquoia and placing native peoples at the lower end of a racial hierarchy to justify their actions Using letters journals speeches and reports this book brings the buried truths to light exploring these series of coordinated attacks that were designed to destroy Haudenosaunee political cohesion clear the Indigenous population from the land and replace it with a non Indigenous one **Grabbing Back** Alexander Reid Ross, 2014-06-09 Land grabs are a global phenomenon of our times driven by the ever increasing demands of both global corporations and the governments with which they are allied But as this powerful and timely book demonstrates ordinary citizens small farmers and ordinary citizens around the world are standing up to defend their own with passion and ingenuity and they are recording successes that are both extraordinary and inspiring Oliver Tickell Editor The Ecologist Climate change ravages the earth while wealthy elites try to grab as much of the world's diminishing resources as possible As Vandana Shiva writes land is life But land and the struggle to possess it is also power colonial and corporate power to be sure but also the power of the dispossessed to rise up and call for an end to the global land grab Grabbing Back maps this struggle bringing together analyses that uncover the politics of cultivation and control In this unprecedented collection on the ground activists join forces with critically acclaimed scholars to document the commodification and consumption of space from foreclosed homes to annihilated rainforests from ecotourism in Sri Lanka to the tar sands of Montana and to outline the strategies and tactics that might the destruction With contributions by Vandana Shiva Noam Chomsky Max Rameau Grace Lee Boggs Michael Hardt Ajamu Umi Ben Dangl and many others More Praise for Grabbing Back Part of the reason that knowledge about the current global land grab is so uncertain is the paucity of perspectives and analysis in defining the problem This book fills the gap admirably Raj Patel author of Stuffed and Starved The acquisition control and exploitation of land as well as the simultaneous dispossession of land based and peasant communities is central to the processes of both colonialism and capitalism As Fanon reminds us egalitarian governance and stewardship of land is fundamental to the struggle for liberation and self determination for all oppressed peoples This makes Grabbing Back a necessary study for

anticapitalist and anticolonial movements Harsha Walia author of Undoing Border Imperialism Grab back this sparkling mosaic of essays as a treasure of our new old knowledge commons Together these pieces replace dichotomies with dialectics making explicit the inseparability of land and collective life Together they restore the vital concept of social ecology in resistance to relentless and increasingly apocalyptic capitalism with emphasis on its second contradiction its impossibility on a finite resource base Maia Ramnath author of Decolonizing Anarchism As the forces of thanatos leave no stone unturned in their quest to dominate the entire planet this anthology provides a much needed antidote Weaving together accounts from around the world the authors advocate building grassroots movements aimed at subverting capital s incessant assault on our lives and land George Katsiaficas author of Asia s Unknown Uprisings Never perhaps has the land question been so crucial for anti capitalist movements as we are witnessing a global process of enclosure that privatizes lands waters forests displacing millions from their homes and placing monetary gates to what we rightly considered our commonwealth It is essential then that we understand what motivates this drive and its effects in all their social and spatial dimensions Grabbing Back takes us through this process identifying the reasons and actors behind this global land grab and most important introducing us to the struggles that people are making across the world to resist being evicted from their lands and to reclaim the earth George Caffentzis Committee for Academic Freedom in Africa

Sousa,2013-08-30 An updated investigation of alternate pathways for American environmental policymaking made necessary by legislative gridlock The golden era of American environmental lawmaking in the 1960s and 1970s saw twenty two pieces of major environmental legislation including the Clean Air Act the Clean Water Act and the Endangered Species Act passed by bipartisan majorities in Congress and signed into law by presidents of both parties But since then partisanship the dramatic movement of Republicans to the right and political brinksmanship have led to legislative gridlock on environmental issues In this book Christopher Klyza and David Sousa argue that the longstanding legislative stalemate at the national level has forced environmental policymaking onto other pathways Klyza and Sousa identify and analyze five alternative policy paths which they illustrate with case studies from 1990 to the present appropriations politics in Congress executive authority the role of the courts next generation collaborative experiments and policymaking at the state and local levels This updated edition features a new chapter discussing environmental policy developments from 2006 to 2012 including intensifying partisanship on the environment the failure of Congress to pass climate legislation the ramifications of Massachusetts v EPA and other Obama administration executive actions some of which have reversed Bush administration executive actions Yet they argue despite legislative gridlock the legacy of 1960s and 1970s policies has created an enduring green state rooted in statutes bureaucratic routines and public

expectations      The End of an Era? Robert Mugabe and a Conflicting Legacy Munyaradzi, Mawere, Marongwe, Ngonidzashe, 2018-11-17 Arguably one of the most polarising figures in modern times has been Robert Gabriel Mugabe the former President of the Republic of Zimbabwe The mere mentioning of his name raises a lot of debate and often times vicious if not irreconcilable differences both in Zimbabwe and beyond In an article titled Lessons of Zimbabwe Mahmood Mamdani succinctly captures the polarity thus It is hard to think of a figure more reviled in the West than Robert Mugabe and his land reform measures however harsh have won him considerable popularity not just in Zimbabwe but throughout southern Africa This together with his recent stylised ouster speaks volumes to his conflicted legacy The divided opinion on Mugabe s legacy can broadly be represented first by those who consider him as a champion of African liberation a Pan Africanist an unmatched revolutionary and an avid anti imperialist who literally spoke the truth to Western imperialists On the other end of the spectrum are those who seemingly paying scant regard to the predicament of millions of black Zimbabweans brutally dispossessed of their land and human dignity since the Rhodesian days have differentially characterised Mugabe as a rabid black fascist an anti white racist an oppressor and a dictator Drawing on all these opinions and characterisations the chapters ensconced in this volume critically reflect on the personality leadership style and contributions of Robert Mugabe during his time in office from 1980 to November 2017 The volume is timely in view of the current contested transition in Zimbabwe and with regard to the ongoing consultations on the Land Question in neighbouring South Africa It is a handy and richly documented text for students and practitioners in political science African studies economics policy studies development studies and global studies      On Being a Sh\*t: Unkind Deeds and Cover-Ups in Everyday Life, Edition with Asterisks Jane Gilgun, 2008-08-01 This is a humorous look at a serious topic of how people do unkind things and then try to cover them up through humor proclamations of innocence and blaming others Through stories the author shows that no one can be a sh t without your consent but they can succeed as b stards pr cks schmucks and weasels all on their own Read this book and you will be ready to dethrone the next person who dumps on you For those who aspire to be sh ts this book is a step by step guide For those who want to be accountable this book shows how It is custom made for readers who prefer not to read slang in texts Each of the slang terms have asterisks in key places This book also shows how to develop and test theory using qualitative methods and makes a great research text      **Congressional Record** United States. **Kenya and the Politics of a Postcolony** Wanjala S. Nasong'o,2024-08-06 This book sets out to probe explore and evaluate the betrayal of anticolonial nationalism in Kenya Contemporary Kenya s emergence is rooted in the colonial enterprise its deleterious effects and the subsequent decolonization spearheaded by a fierce anti colonial nationalism that was embodied in freedom struggles at the cultural political and military levels As a settler colony the colonial settlers hived off millions of hectares of the best land in the highland areas of Kenya and appropriated them for themselves thereby generating a large mass of the landless This land alienation constituted one of the most deeply felt grievances which together with the exclusivist exploitative and oppressive colonial system inflamed anti colonial nationalism that undergirded the struggle for independence The expectation on the part of the masses was that independence would bring about social justice restitution of the stolen lands and a government based on the will and aspirations of the governed Political developments soon after independence however demonstrated the extent of betrayal of the cause of anti colonial nationalism which has remained the reality to date This book covers the extent of this sense of betrayal from the time of independence to the present It begins by

locating contemporary Kenya within the colonial context then proceeds to thematic issues of betrayal including the fall out between President Kenyatta and Vice President Odinga over ideology and issues of development which constituted the first betrayal the scourge of bureaucratic corruption and rent seeking the question of land and associated historical injustices and electoral malpractice since the return of multiparty politics in 1992 to the most recent elections of 2022 The implications of these dynamics for the future of the Kenyan polity are delineated and discussed Canada and the Changing Arctic

Franklyn Griffiths, Rob Huebert, P. Whitney Lackenbauer, 2011-11-01 Global warming has had a dramatic impact on the Arctic environment including the ice melt that has opened previously ice covered waterways State and non state actors who look to the region and its resources with varied agendas have started to pay attention Do new geopolitical dynamics point to a competitive and inherently conflictual race for resources Or will the Arctic become a region governed by mutual benefit international law and the achievement of a widening array of cooperative arrangements among interested states and Indigenous peoples As an Arctic nation Canada is not immune to the consequences of these transformations In Canada and the Changing Arctic Sovereignty Security and Stewardship the authors all leading commentators on Arctic affairs grapple with fundamental questions about how Canada should craft a responsible and effective Northern strategy They outline diverse paths to achieving sovereignty security and stewardship in Canada's Arctic and in the broader circumpolar world The changing Arctic region presents Canadians with daunting challenges and tremendous opportunities This book will inspire continued debate on what Canada must do to protect its interests project its values and play a leadership role in the twenty first century Arctic Forewords by Senator Hugh Segal and former Minister of Foreign Affairs and of National Defence Bill Graham **Boating**, 1961-07 **A Southern Story** Sterling Vinson, 2022-04-29 This book is an examination of a southern white family's relations with people of color in the United States from about 1650 to the present Part autobiography part social history we were slaveowners Confederate soldiers Klansmen and responsible for at least one lynching During the last two generations we befriended Nisei during World War II and since then have been increasingly active in Civil Rights in the South and Southwest e.g. the Sanctuary Movement and Humane Borders The book can therefore be viewed as an account of sin and redemption especially since the author has moved from a history of alcoholism and violence to membership in the Presbyterian Church US **Boys' Life**, 1971-10 Boys Life is the official youth magazine for the Boy Scouts of America Published since 1911 it contains a proven mix of news nature sports history fiction science comics and Scouting

**Agricultural Development and Food Security in Africa** Renu Modi, Fantu Cheru, 2013-08-08 The subject of food security and land issues in Africa has become one of increased importance and contention over recent years In particular the focus has shifted to the role new global South donors especially India China and Brazil are playing in shaping African agriculture through their increased involvement and investment in the continent Approaching the topic through the framework of South South co operation this highly original volume presents a critical analysis of the ways in which Chinese

Indian and Brazilian engagements in African agriculture are structured and implemented Do these investments have the potential to create new opportunities to improve local living standards transfer new technology and knowhow to African producers and reverse the persistent productivity decline in African agriculture Or will they simply aggravate the problem of food insecurity by accelerating the process of land alienation and displacement of local people from their land Topical and comprehensive Agricultural Development and Food Security in Africa offers fresh insight into a set of relationships that will shape both Africa and the world over the coming decades
