V. B. Price, 2011-11-16 Although most people prefer not to think about them hazardous wastes munitions testing radioactive emissions and a variety of other issues affect the quality of land water and air in the Land of Enchantment as they do all over the world In this book veteran New Mexico journalist V B Price assembles a vast amount of information on more than fifty years of deterioration of the state s environment most of it hitherto available only in scattered newspaper articles and government reports Viewing New Mexico as a microcosm of global ecological degradation Price s is the first book to give the general public a realistic perspective on the problems surrounding New Mexico s environmental health and resources

Devil's Tango Cecile Pineda, 2013-03-01 As much personal journal as investigative journalism this second edition traces the worsening developments at Fukushima Daiichi during the first year following the nuclear disaster Often poetic in tone and philosophic in scope this day to day reportage is peppered with the author s reflections and dramatic monologues as she investigates the public s willing blindness toward the nuclear power industry s disregard for public safety in the pursuit of profit The book offers a unique perspective and attempts to come to terms with Fukushima s catastrophic consequences on the planet Savannah River Site at Fifty Mary Beth Reed, 2002 The heart of the book is a historical treatment of Savannah River Site s operations its peak period of production 1953 to 1979 Developments in reactor technology and chemical separations heavy water production waste management and the research goals of the Savannah River Laboratory are described in layman s terms and are amply illustrated This history profiles the individuals who brought the plant to maturity and explores the two themes that define the nuclear weapons workplace safety and security **TechKnowledgies** Mary

Valentis with Tara P. Monastero, Paula Yablonsky, 2008-12-18 TechKnowledgies New Imaginaries and Transmigrations in the Humanities Arts and TechnoSciences is a diverse collection of essays a recently produced technology play by William Kennedy art and installations that represent and at times resist the ways science and technology are interacting with the arts and the humanities to produce new imaginaries and disciplinary transmigrations that gesture towards a university of tomorrow As theorists posit new futures and call for an end to historically grounded or discipline based so called silo approaches to knowledges a de facto reorganization of disciplinary boundaries and a migratory spirit have spontaneously infused the humanities with new life These transmigrations instead of diffusing the disciplinary terrain have strengthened and broadened existing fields They are provoking re mappings of intellectual topography and ironically have brought about more rather than less integration Activated by such massive cultural shifts as the turn from print to visual culture the technological revolution and its virtual sublimates the acceleration of scientific advances the rise and incorporation of mass or

popular culture and the possibilities of replication the humanities are producing integrated knowledges what we are calling new TechKnowledgies that interface the humanities the arts the social and hard sciences with digital technologies and research emerging at the borders of all these fields **Energy Research Abstracts** ,1986 Review of Progress in Quantitative Nondestructive Evaluation Donald O.
