Rainbow Body Kurt Leland, 2016-11-01 If you've ever had questions about the inconsistencies between chakra systems or wondered where the names, colors, locations and other associations came from, you'll find the answers here along with 24 tables and 28 black and white illustrations showing how the Western chakra system developed from the mid 19th through the 20th century, many from rare and forgotten sources. Based on the teachings of Indian Tantra, the chakras have been used for centuries as focal points for healing, meditation, and achieving a gamut of physical, emotional, and spiritual benefits, from improved health to ultimate enlightenment. Contemporary yoga teachers, energy healers, psychics, and self-help devotees think of the chakra system as thousands of years old. Yet the most common version in use in the West today came together as recently as 1977. Never before has the story been told of how the Western chakra system developed from its roots in Indian Tantra through Blavatsky to Leadbeater, Steiner to Alice Bailey, Jung to Joseph Campbell, Ramakrishna to Aurobindo and Esalen to Shirley MacLaine and Barbara Brennan.

The Psychic Energy Codex Michelle A. Belanger, 2007-07-01 An authoritative manual for psychic development. The Psychic Energy Codex explores the roots of modern metaphysical beliefs, including the doctrine of the subtle body in the Western tradition, the origin of belief in the chakras, and core principles behind time-honored techniques such as meditation and creative visualization. Like Belanger's *Psychic Vampire Codex*, The Psychic Energy Codex makes esoteric topics accessible and understandable. The Psychic Energy Codex demystifies psychic experience, taking a practical, rational approach to phenomena from psychometry to spirit communication, with a style that will engage beginners and experts alike. Provides many hands-on exercises that encourage readers to develop their own beliefs based on direct personal experience. Teaches readers the underlying principles of psychic phenomena that can then be applied to any interaction with the subtle world. Written in Belanger's engaging, almost novelistic style, the parts of this book that tell her own story draw readers into the possibility that they too can develop their own innate abilities.
