Nuclear Freeze Movement:

Coalitions & Political Movements Thomas R. Rochon, David S. Meyer, 1997 Twelve contributions apply recent theory on movements to the nuclear freeze movement of the 1980s Subject areas include the development of the freeze movement its social and political impact and the question of whether the movement simply disintegrated or was transformed into other forms of activism Annotation copyrighted by Book News Inc Portland OR *A Winter of Discontent* David Meyer, 1990-06-26 The nuclear freeze movement grew more quickly than even the most optimistic activists thought possible as large numbers of Americans became convinced that there was something wrong with United States defense policy and that they could do something about it This analysis provides the first comprehensive history of the nuclear freeze movement approaching it from three distinct perspectives Changes in the politics and policy of nuclear weapons created an opportunity for a dissident movement Intermediating forces in American politics influenced the situation The efforts of activists and organizations to build a protest movement and their interaction with American political institutions provide the third perspective *A Winter of Discontent* addresses both the broad spectrum of movement activity and the political context surrounding it The text explores the challenge of the nuclear freeze movement to the content of United States national security policy and the policy making process By analyzing the freeze a theoretical framework for understanding the origins development and potential political influence of other protest movements in the United States can be developed The book also strives to integrate analysis of peace movements into an understanding of the policy context in which they emerge This volume is essential for courses in social movements strategic policy American politics and political sociology Antinuclear freeze activists and students of peace studies will also find this work invaluable *The Nuclear Freeze Movement as Collective Action* Bradley Jay Fisher, 1983

Freeze! Henry Richard Maar III, 2022-01-15 In *Freeze* Henry Richard Maar III chronicles the rise of the transformative and transnational Nuclear Weapons Freeze Campaign Amid an escalating Cold War that pitted the nuclear arsenal of the United States against that of the Soviet Union the grassroots peace movement emerged sweeping the nation and uniting people around the world The solution for the arms race that the Campaign proposed a bilateral freeze on the building testing and deployment of nuclear weapons on the part of two superpowers of the US and the USSR That simple but powerful proposition stirred popular sentiment and provoked protest in the streets and on screen from New York City to London to Berlin Movie stars and scholars bishops and reverends governors and congress members and ultimately US President Reagan and General Secretary Gorbachev took a stand for or against the Freeze proposal With the Reagan administration so openly discussing the prospect of winnable and survivable nuclear warfare like never before the Freeze movement forcefully translated decades of private fears into public action Drawing upon extensive archival research in recently declassified materials Maar illuminates how the Freeze campaign demonstrated the power and importance of grassroots peace activism in all levels of society The Freeze movement played an instrumental role in shaping public opinion and American politics

helping establish the conditions that would bring the Cold War to an end *The Peace and Nuclear Freeze Movements* Earleen H. Cook, 1984 **The Nuclear Freeze Campaign** J. Michael Hogan, 1994 In the first in depth critical analysis of the nuclear freeze campaign J Michael Hogan examines the rhetorical strategies of freeze activists in political speeches mass market paperbacks direct mail documentaries and even public school curricula Through a series of case studies Hogan examines the reasons for the campaign s success as a media phenomenon while also accounting for its failure as a policy initiative The rhetorical strategies of the freeze campaign Hogan argues attracted sympathetic news coverage especially on television news but those very strategies doomed the campaign to failure in institutional political contexts and produced only superficial and transitory public support The Nuclear Freeze Campaign explores what public debate and deliberation can and cannot accomplish in the telepolitical age In focusing upon the freeze campaign Hogan offers a new more critical interpretation of a political cause often praised for empowering the public in the nuclear debate He also explains why such an apparently powerful political movement had so little impact on electoral politics and strategic arms policies Above all however Hogan warns of larger threats to American democracy threats posed by dangerous trends in the ways Americans identify discuss debate and resolve important public issues These are the threats posed by the politics of imagery and emotionalism of sloganeering and sound bites that suggest to Americans that politics is a spectator sport **The Nuclear Freeze Movement** Judith Bentley, 1984-01-01 Discusses the history of the arms race and the growth of the nuclear freeze movement Explains how the freeze would work and examines the arguments for and against it **American Anti-Nuclear Activism, 1975-1990** K. Harvey, 2014-10-28 Looking at national peace organizations alongside lesser known protest collectives this book argues that anti nuclear activists encountered familiar challenges common to other social movements of the late twentieth century **The Nuclear Freeze Debate** Paul M Cole, William J Taylor Jr, 2019-06-26 From a local ballot initiative in Massachusetts the nuclear weapons freeze movement has grown during the last three years into an important national issue By 1983 Congress had been asked to consider more than two dozen freeze resolutions and more than 25% of the voters in the U S had the opportunity to vote on state wide and regional freeze initiatives This book explores the issues behind the current debate over nuclear weapons and the freeze movement from a wide range of perspectives The contributors assess the goals and implications of the freeze movement examine its origins in religious and secular pacifism explain the amendments to the original freeze proposal introduced in Congress and discuss the reaction and policies of the Reagan administration The nuclear freeze movement is placed in an international context with discussions of recent arms negotiations European views of U S policies and the possible effects of a freeze on NATO allies and on U S national security The book includes a comprehensive annotated bibliography **Transnational Social Movements and Global Politics** Jackie Smith, Charles Chatfield, Ron Pagnucco, 1998-01-01 Transnational Social Movements and Global Social Politics examines a cast of global actors left out of the traditional studies of international politics It generates a theoretically

informed view of the relationships between an emerging global civil society partly manifested in transnational social movements and international political institutions This book consists of fifteen essays all written by experts in the field The first three parts analyze the rise of transnational social movements in the context of broad twentieth century trends A fourth part builds a theoretical framework from which organizations influencing global governance can be viewed

The Peace Movements in Europe and the United States Werner Kaltefleiter, Robert L. Pfaltzgraff, 2019-07-09 In the early 1980s the peace movements in most of the Western countries captured public attention as never before This largely resulted from NATO's decision in 1979 to deploy new medium range missiles in Europe in 1983 if negotiations with the Soviet Union to limit this type of weapon system failed The main purpose of the peace movements in Europe was to put pressure on their respective governments to accept Soviet proposals in negotiations and not to deploy new missiles Many large demonstrations and other happenings were organised for this purpose The Soviet and other Warsaw Pact countries accompanied and supported the activities of the peace movements by propaganda and disinformation campaigns The national peace movements despite their common aims had different historic backgrounds and characteristics This book originally published in 1985 presents an authoritative review of the peace movements in Sweden Denmark Norway the Netherlands Great Britain France Italy Germany and the United States The authors discuss not only the history and organisation of each peace movement but also their international cooperation media coverage and prospects for the future
