War, Torture and Terrorism Anthony F. Lang, Jr., Amanda Russell Beattie, 2008-10-27 This book seeks to demonstrate how rules not only guide a variety of practices within international politics but also contribute to the chaos and tension on the part of agents in light of the structures they sustain Four central themes practice legitimacy regulation and responsibility reflect different dimensions of a rule governed political order The volume does not provide a single new set of rules for governing an increasingly chaotic international system Instead it provides reflections upon the way in which rules can and cannot deal with practices of violence While many assume that obeying the rules will bring more peaceful outcomes the chapters in this volume demonstrate that this may occur in some cases but more often than not the very nature of a rule governed order will create tensions and stresses that require a constant attention to underlying political dynamics This wide ranging volume will be of great interest to students of International Law International Security and IR theory

The Relations between Defence and Civil Technologies Philip Gummett,Judith Reppy,2013-03-09 This book arises from a meeting held at Wiston House Sussex UK in September 1987 The meeting brought together academic governmental and industrial experts from eight countries to discuss the increasingly important subject of the relations between civil and defence technologies It was primarily funded under the Advanced Research Workshops Programme of NATO's Scientific Affairs Division and was the first science policy workshop funded by the Programme Additional financial support came from the Leverhulme Trust The choice of topic of speakers and finally of papers to be published was entirely ours The conclusions reached were our own and those of the participants They were not in any way guided by NATO nor do they represent NATO policy We speak for all the participants in offering our thanks to the NATO Scientific Affairs Division especially Secretary General Durand and Dr Craig Sinclair for their generosity and encouragement Without them this book would not exist We

thank the Leverhulme Trust for enabling assistance to be provided to the Workshop Directors in the form of Iain Bate who himself played a major part in the success of the meeting. The staff of Wiston House must also be thanked for providing an admirable environment for the meeting. For secretarial support prior to the meeting we thank Gill Miller and Lesley Price. Finally we offer special thanks to Mrs Yvonne Aspinall for converting all the papers in whatever state they were presented into camera ready copy with such professionalism and good humour.

Indian Nuclear Policy Harsh V. Pant, Yogesh Joshi, 2018-07-16

India has come a long way from being a nuclear pariah to a de facto member of the nuclear club. The transition in its nuclear identity has been accompanied by its transformation into a major economic power and underlines a pragmatic turn in its foreign policy thinking. This book provides a historical narrative of the evolution of India's nuclear policy since 1947 as the country continues its pursuit for complete integration into the global nuclear order. Situating India's nuclear behaviour in this context, the book explains how India's engagement with the atom is unique in international nuclear history and politics. Aided by declassified archival documents and oral history interviews, it focuses on how status, security, domestic politics and the role of individuals have played a key role in defining and shaping India's nuclear trajectory, policy choices and their consequences.
