Pajak, 1982 The diffusion of nuclear technology in the Third World and the possibility of nuclear weapons proliferation comprise one of the most acute security concerns confronting the US and its allies Nowhere are the implications for world peace more precarious than in the volatile Middle East In contrast to the US Soviet political environment which a nuclear code of conduct has developed no such code of behavior exists in the Arab Israeli milieu A potential nuclear scenario thereby looms in large in any renewed significant conflict in the Middle East with the consequent implications for catastrophe in the area as well as for superpower confrontation The political military and economic incentives which might impel a state to go nuclear clearly obtain for Israel and its primary Arab antagonists Israel appears on virtually every list of would be proliferators while politico military incentives and the requisite economic capabilities for obtaining a nuclear capability are undeniably present in several Arab states *Israel: the First Hundred Years* Efraim Karsh, 2013-11-26 The end of the British mandate in Palestine heralded the birth of the new state of Israel It also marked the end of one of the most tumultuous and momentous chapters in Israeli history But the new state born into a hostile environment and struggling with the manifold demands of sovereignty would have to face many post Independence challenges to its existence not least in the form of armed conflict and confrontation with its Arab neighbours This volume examines the conflicts that from the 1948 until the 1967 Six Day War came to define the Israeli struggle for existence
