Reconstruction and Regional Diplomacy in the Persian Gulf H. Amirahmadi,N. Entessar,2023-05-26 First Published in 1992 Reconstruction and Regional Diplomacy in the Persian Gulf goes beyond a description of the recent events by analysing the social political and economic patterns of interaction between the Gulf states The argument is strengthened by a consideration of the role of the superpowers in the region s political discourse and of religion as a force for a change Not only do the authors provide an easily accessible basis for explaining the current problems in the region but they also offer their own sometimes provocative policy prescriptions This book is an important read for scholars and researchers of Middle East politics and Middle East history

*The United States, Russia, and European Security* Amphas-Mampoua,2004

*Globalization, War, and Peace in the Twenty-first Century* W. Nester,2010-11-14 This book explores humanity s most persistent and tragic problem by answering some crucial questions including How is military power created and asserted What are weapons of mass destruction and what is the likelihood of them being used What are the source methods and results of terrorism and counterterrorism

Reading Donald Trump Jeremy Kowalski,2018-08-29 This book provides a scholarly assessment and analysis of the Trump campaign and early presidency This assessment and analysis is important not only to help provide some coherence to the turbulent and unpredictable character of Trumpism but to contribute to establishing a scholarly foundation for future works that will provide assessments of the Trump presidency in its mid and later stages Given the divisive and destructive capacity of Trumpism and its political and social implications both domestically and internationally understanding the distinctive political phenomenon of Trumpism is necessary if resistance to this transformative moment in American political history is to be successful This book collects a series of short scholarly contributions on various themes related to Trumpism by scholars from disciplines in both the Humanities and Social Sciences
