annotated bibliography with suggestions for further reading Central to all of Sartre's writing was his attempt to describe the salient features of human existence freedom responsibility the emotions relations with others work embodiment perception imagination death and so forth In this way he attempted to bring clarity and rigor to the murky realm of the subjective limiting his focus neither to the purely intellectual side of life the world of reasoning or more broadly of thinking nor to those objective features of human life that permit of study from the outside Instead he broadened his focus so as to include the meaning of all facets of human existence Thus his work addressed in a fundamental way and primarily from the inside where Sartre's skills as a novelist and dramatist served him well the question of how an individual is related to everything that comprises his or her situation the physical world other individuals complex social collectives and the cultural world of artifacts and institutions

Of Human Freedom Jean-Paul Sartre, 1967

Being and Nothingness Jean-Paul Sartre, 2021-09-07 Revisit one of the most important pillars in modern philosophy with this new English translation the first in more than 60 years of Jean Paul Sartre's seminal treatise on existentialism This is a philosophy to be reckoned with both for its own intrinsic power and as a profound symptom of our time The New York Times In 1943 Jean Paul Sartre published his masterpiece *Being and Nothingness* and laid the foundation of his legacy as one of the greatest twentieth century philosophers A brilliant and radical account of the human condition *Being and Nothingness* explores what gives our lives significance In a new and more accessible translation this foundational text argues that we alone create our values and our existence is characterized by freedom and the inescapability of choice Far from being an internal passive container for our thoughts and experiences human consciousness is constantly projecting itself into the outside world and imbuing it with meaning Now with a new foreword by Harvard professor of philosophy Richard Moran this clear eyed translation guarantees that the groundbreaking ideas that Sartre introduced in this resonant work will continue to inspire for generations to come

Existentialism and Human Emotions Jean-Paul Sartre, 1985 Proposes that individuals

must create their own values take responsibility for their actions and find a sense of meaning while living in a universe without purpose

Witness to My Life Jean-Paul Sartre,1992 **The Last Chance** Jean-Paul Sartre,2009-09-30 The first English translation of Sartre s unfinished fourth volume of Roads of Freedom exploring themes central to Sartrean existentialism Based on the French Pleiade edition published by Gallimard in 1981 the book also includes an interview with Sartre Simone de Beauvoir s account of his plans for the unfinished work and introductory material by the editor of the French edition

Existentialism and Humanism Jean-Paul Sartre,2007 Over the past sixty years the writings of Jean Paul Sartre have probably been more influential in the West than those of any other philosopher and literary figure In his theoretical writings Sartre laid the foundation for an original doctrine of Existentialism His concern however was to relate his theory to human response and the practical demands of living To achieve this he carried his philosophical concepts into his novels and plays and there subjected them to the test of imagined experience His uniqueness lies in the success with which he demonstrated the utility of Existentialist doctrine while creating at the same time works of the highest literary merit Thus Sartre became the populariser of his own literary thought Originally delivered as a lecture in Paris in 1945 Existentialism and Humanism is Jean Paul Sartre s seminal defence of Existentialism as a doctrine true to Humanism as opposed to a purely nihilistic creed and a plan for its practical application to everyday human life This exploration of one of the central tenets of his philosophical thought has become the essential introduction to his work and a fundamental text for all students of philosophy page 4 of cover

Life/Situations Jean-Paul Sartre,1977 Interviews with intellectual vigor Sartre s preoccupations as a man and writer autobiographical reflections and reappraisals a tartly provocative consideration of the woman s movement with Simone de Beauvoir and on his monumental study of Flaubert

Sartre in Search of an Ethics Paul Crittenden,2019-07-31 In the postwar years Jean Paul Sartre set himself the task of writing a book on ethics His concern was to take up issues raised by his existentialist ontology and to resolve problems in his bleak account of the human situation in Being and Nothingness I am searching he said for an ethics for the present time For several years he prepared background notes but then put the material aside as too abstract and idealistic leaving it for publication after his death Years later he returned to ethics this time in the hope of developing an account related to the Critique of Dialectical Reason But once again he left the inquiry incomplete There was yet a third attempt towards the end of his life when Sartre was blind and weak a poignant witness to his abiding interest in ethics This took the form of interviews with Benny L vy which appeared in a controversial publication just before his death Sartre in Search of an Ethics is a study of each of these stages in his ethical quest with a focus on the major themes of his existentialist and dialectical ethics in the context of some of his main philosophical and literary writings

Jean-Paul Sartre Justus Streller,1960 **Jean-Paul Sartre--contemporary Approaches to His Philosophy** Hugh J. Silverman,Frederick Elliston,1980 **The Imagination** Jean-Paul Sartre,2012-11-12 No matter how long I may look at an image I shall never find anything in it but what I put there It is in this

fact that we find the distinction between an image and a perception Jean Paul Sartre *L'Imagination* was published in 1936 when Jean Paul Sartre was thirty years old Long out of print this is the first English translation in many years The *Imagination* is Sartre's first full philosophical work presenting some of the basic arguments concerning phenomenology consciousness and intentionality that were to later appear in his master works and be so influential in the course of twentieth century philosophy Sartre begins by criticising philosophical theories of the imagination particularly those of Descartes Leibniz and Hume before establishing his central thesis *Imagination* does not involve the perception of mental images in any literal sense Sartre argues yet reveals some of the fundamental capacities of consciousness He then reviews psychological theories of the imagination including a fascinating discussion of the work of Henri Bergson Sartre argues that the classical conception is fundamentally flawed because it begins by conceiving of the imagination as being like perception and then seeks in vain to re-establish the difference between the two Sartre concludes with an important chapter on Husserl's theory of the imagination which despite sharing the flaws of earlier approaches signals a new phenomenological way forward in understanding the imagination The *Imagination* is essential reading for anyone interested in the philosophy of Jean Paul Sartre phenomenology and the history of twentieth century philosophy This new translation includes a helpful historical and philosophical introduction by Kenneth Williford and David Rudrauf Also included is Maurice Merleau-Ponty's important review of *L'Imagination* upon its publication in French in 1936 Translated by Kenneth Williford and David Rudrauf
