Pseudo Dionysius And The Metaphysics Of Aquinas:

Pseudo-Dionysius and the Metaphysics of Aquinas O'Rourke,2021-10-18 In Aquinas encounter with Pseudo Dionysius can be discovered an integral philosophy of reality a comprehensive vision of existence depicting the universe in its procession from and return to the Absolute according to each grade of reality including man its place in the hierarchy of being The point of divergence is the primacy attributed in turn by the authors to the Good or to Being as a universal principle Against this background the present work investigates the influence of Dionysius with respect to the central themes of Aquinas metaphysics knowledge of the Absolute and its nature as transcendent Being as primary and universal perfection the diffusion of creation the hierarchy of creatures and return of all to God as the final end This is one of the few studies to date which considers in a comprehensive way the relation between these remarkable thinkers By concrete example and continual reference it illustrates both the pervasive influence of Pseudo Dionysius and the profound originality of Aquinas

O'Grady,2014-11-04 This is an exploration and analysis of Aquinas s contribution to the philosophy of religion It examines Aquinas s contexts his views on philosophy and theology as well as faith and reason His arguments for God s existence responses to objections against God s existence and his characterization of the nature of God are examined *Aristotle in Aquinas's Theology* Gilles P. Emery,Matthew Levering,2015-10-30 Aristotle in Aquinas s Theology explores the role of Aristotelian concepts principles and themes in Thomas Aquinas s theology Each chapter investigates the significance of Aquinas s theological reception of Aristotle in a central theological domain the Trinity the angels soul and body the Mosaic law grace charity justice contemplation and action Christ and the sacraments In general the essays focus on the Summa theologiae but some range more widely in Aquinas s corpus For some time it has above all been the influence of Aristotle on Aquinas s philosophy that has been the centre of attention Perhaps in reaction to philosophical neo Thomism or perhaps because this Aristotelian influence appears no longer necessary to demonstrate the role of Aristotle in Aquinas s theology presently receives less theological attention than does Aquinas s use of other authorities whether Scripture or particular Fathers especially in domains outside of theological ethics Indeed in some theological circles the influence of Aristotle upon Aquinas s theology is no longer well understood Readers will encounter here the great Aristotelian themes such as act and potency God as pure act

substance and accidents power and generation change and motion fourfold causality form and matterhylomorphic anthropology the structure of intellection the relationship between knowledge and will happiness and friendship habits and virtues contemplation and action politics and justice the best form of government and private property and the common good The ten essays in this book engage Aquinas's reception of Aristotle in his theology from a variety of points of view historical philosophical and constructively theological

Thomas Aquinas's Summa Theologiae Bernard McGinn, 2019-05-28 This concise book tells the story of the most important theological work of the Middle Ages the vast Summa theologiae of Thomas Aquinas which holds a unique place in Western religion and philosophy Written between 1266 and 1273 the Summa was conceived by Aquinas as an instructional guide for teachers and novices and a compendium of all the approved teachings of the Catholic Church It synthesizes an astonishing range of scholarship covering hundreds of topics and containing more than a million and a half words and was still unfinished at the time of Aquinas's death Here Bernard McGinn one of today's most acclaimed scholars of medieval Christianity vividly describes the world that shaped Aquinas then turns to the Dominican friar's life and career examining Aquinas's reasons for writing his masterpiece its subject matter and the novel way he organized it McGinn gives readers a brief tour of the Summa itself and then discusses its reception over the past seven hundred years He looks at the influence of the Summa on such giants of medieval Christendom as Meister Eckhart its ridicule during the Enlightenment the rise and fall of Neothomism in the nineteenth and twentieth centuries the role of the Summa in the post Vatican II church and the book's enduring relevance today

Contingent Causality and the Foundations of Duns Scotus' Metaphysics Sylwanowicz, 2021-10-25 This study challenges the current view that the originality of Duns Scotus' notion of contingent causality lies in modal logic It works as an ontological concept and so provides a point of entry into the foundations of Duns Scotus' metaphysics As one of two basic manifestations of the active causal power of being it points to Scotus' underlying ontology which can no longer be seen as a failure to attain Aquinas' clarity We have a positive alternative capable of generating the characteristic Scotist theses univocity of being formal distinction haecceitas proof of God's existence from possibility the producibility of God's ideas The exploration of the role contingent causality plays in Scotus and Bradwardine's

views on free will and predestination and Bradwardine's claim that God can undo the past opens the way towards new interpretations

Matter as an Image of the Good Rachel M. Coleman, 2025-07-03 The question of matter has been a quiet but enduring question in our desire to know being and therefore to know ourselves since we began to ask questions about the nature of being at all Indeed in the Timaeus Plato writes that matter is only graspable by some bastard reasoning The use of this evocative adjective is not meant simply to indicate that matter is bad or the source of all evil but rather indicates matter's middleness not exactly being itself but also not nonbeing simpliciter Thus thinking about matter cannot happen in the usual way Ferdinand Ulrich is not a usual thinker and this book seeks to illuminate Ulrich's radical way of thinking being and thinking being as gift which is to say it seeks to explain Ulrich's metaphysics of creation It does so in light of Ulrich's understanding of matter which has a central place in his work and indeed is for Ulrich the test case for whether any metaphysics is sufficiently radical
