Management Douglas J. Watson, Wendy L. Hassett, 2016-04-15 Some of the very best writings on issues involving local government can be found in journals published by the American Society for Public Administration or journals with which ASPA is associated This volume includes thirty of the most outstanding articles that have been published over the past sixty years in these journals Local Government Management is an ideal supplement for any course in local management and administration whether the audience is students or practicing professionals *Modern Politics and Administration* Marshall Edward Dimock, 1937 **Why Government Succeeds and Why It Fails** Amihai Glazer, 2009-07-01 This book looks beyond politics to show how the ability of the U S government to implement policies is strongly affected by various economic constraints These include the credibility of the policies the ability of government to commit to them the extent to which firms and consumers rationally anticipate their effects whether the success of a policy further encourages firms and individuals to behave in intended ways and whether the behavior of such actors can be sustained without continued government intervention The authors apply these concepts to four areas of policy macroeconomic policies to promote employment and economic growth redistributive policies to benefit the poor and the elderly production policies to provide goods and services and regulatory policies to guide the behavior of firms and individuals In doing so they provide plausible explanations of many puzzling phenomena for example why government has been successful in reducing cigarette smoking but has failed to get people to install and maintain emission control devices in their cars This book recasts debates about public policy avoiding conventional pro government or anti government positions rather it helps to predict when public policy will succeed

Fulbright Scholar Program, Grants for Faculty and Professionals ,2004 **Reports and Documents** United States. Congress, *The Publishers' Trade List Annual* ,1986 **From Policy to Administration** J.A. G. Griffith, 2022-03-29 First published in 1976 From Policy to Administration is not the conventional Festschrift written by many hands on many unrelated subjects rather it is a tight collection of essays conceived and written around a unified theme From one point of view policy and administration are at two opposite ends of the governmental spectrum but at the same time both are aspects of almost every single government activity and the essays in this book set out to reflect this apparent paradox Dr Jones finds symptoms of it at the administrative heart of the policy making machine while Professor Friedrich looks at the nature of that machine and its relation to democratic forms Four central essays by Professors Bernard Crick Peter Self John Mackintosh and Mr Sharpe link policy making and administration to the controversies about participation decentralisation and devolution Mr Foster considers the public corporation as a dynamic instrument concerned with the problem of efficiency The book concludes with essays by Professors Mitchell and Griffith on the involvement of legal processes in the structure and functioning of policy and administration The book does not attempt to cover all of William Robson s interests It is a mark of the versatility of his genius that no book could do that and remain unified This book will be of interest to scholars and

researchers of public administration and political studies
