## Quest For Fire:

Quests for Fire ,2012-09-04 It is hard to imagine life without fire Heat light food where would we be without these essentials Although we do not rely on fire as much today as in times past nor have as much direct contact with it fire was often crucial to survival when the stories in this collection were first told People often told stories about it what their lives were like without fire how they first acquired it and how it changed their lives This collection of nine traditional tales retold by Jon C Stott draws from eight different countries Learn how Maui stole fire twice New Zealand how Coyote and his friends captured fire United States how Opossum brought fire back to the people Mexico and how Vasilisa used the Baba Yaga s fire Russia The main characters of these stories differ in many aspects Some are well known heroes and some are insignificant members of their groups Some made their quests for fire alone and some worked with others Some were brave and unselfish and some sought personal glory But all knew that fire was essential for their people *The Quest for Fire* J.-H. science instead they most often took a comedic look at prehistory a trend that continued throughout the 20th century Prehistoric humans also populated adventure fantasy films with the original One Million B C 1940 leading the charge Documentaries were also made but it was not until the 1970s that accurate film accounts of prehistoric humans finally emerged This exhaustive work provides detailed accounts of 581 film and television productions that feature depictions of human prehistory Included are dramas and comedies set in human prehistory documentaries and films and television shows in which prehistoric people somehow exist in historical periods from the advent of civilization up to the present or in extraterrestrial settings Each entry includes full filmographic data including year of release running time production personnel cast information and format A description of each film provides background on the prehistoric elements Contemporary critical commentary is included for many of the works

**Fire in the Stone** Nicholas Ruddick, 2012-01-01 The genre of prehistoric fiction contains a surprisingly large and diverse group of fictional works by American British and French writers from the late nineteenth century to the present that describe prehistoric humans Nicholas Ruddick explains why prehistoric fiction could not come into being until after the acceptance of Charles Darwin's theories and argues that many early prehistoric fiction works are still worth reading even though the science upon which they are based is now outdated Exploring the history and evolution of the genre Ruddick shows how prehistoric fiction can offer fascinating insights into the possible origins of human nature sexuality racial distinctions language religion and art The book includes discussions of well known prehistoric fiction by H G Wells Jules Verne J H Rosny A n Jack London William Golding Arthur C Clarke and Jean M Auel and reminds us of some unjustly forgotten landmarks of prehistoric fiction It also briefly covers such topics as the recent boom in prehistoric romance notable prehistoric fiction for children and young adults and the most entertaining movies featuring prehistoric humans The book includes illustrations that trace the changing popular images of cave men and women over the past 150 years
