Assessing Intelligence in Children and Adolescents John
 H. Kranzler, Randy G. Floyd, 2020-08-27 This practical guide to the intellectual assessment of children and adolescents in
 schools is widely used both by practicing school psychologists and by instructors and students in graduate school psychology
 programs This second edition includes evidence based best practices for the use and interpretation of intelligence tests in
 decision making by counselors teachers administrators and other school personnel While the assessment of intelligence has
 long been mandated by law for eligibility determination for special education and related services there is widespread
 disagreement about the use and interpretation of intelligence tests This is the only intellectual assessment book to address
 this issue by critically reviewing the scientific evidence regarding the critical role played by intelligence tests in the schools
 for the determination of eligibility for special education and related services alongside the plethora of practical information
 New to this edition New chapter that reviews the methodology used in research on interventions that target cognitive
 abilities and the results of that research as well as literature on aptitude by treatment interactions in the cognitive
 domain New chapter on the WISC V its history and an in depth description of its organization materials and scores for both
 the traditional administration format and the new Q interactive format New section titled Where in the Brain is Intelligence as
 well as expanded discussions of contemporary training programs designed to increase intelligence Revised Screening Tool for
 Assessment forms to address English language proficiency and acculturation Updated entries for four intelligence tests and
 added an entry for the Detroit Test of Learning Abilities Fifth Edition Hammill McGhee Ehrler 2018 Added sections focused
 on test accommodations and behavior management during testing Recommendations for incorporating emergent assessment
