Rabbit Country:

Drought Country Robert Godfree, 2025-02-03 Droughts have lurked behind Australia's major nation shaping moments from European settlement at Port Jackson to Federation. They have caused catastrophic damage to Aboriginal colonial and modern societies and of course to the very land itself. Indeed by depriving us of water that element most fundamental to life droughts cut to the very essence of living in Australia. Weaving historical accounts with scientific theory Robert Godfree will take you on a journey through the most brutal Australian droughts of the past three centuries encountering mythmaking colonialism smallpox economic depression a dust bowl heatwaves ecosystem collapse and the coming of the second age of coal. With analysis and insights informed by his childhood in rural Australia and career in research science he reflects on the choices made during each of these crises and looks to the future of what is becoming a more volatile and human dominated continent. *Drought Country* is a timely exploration of this continent's harsh climate providing useful insights for land

This cabin is located along a dirt logging road many miles from the main highway deep inside the Allegheny National Forest in McKean County near the Kinzua Dam and Reservoir. The first section of this book recounts how a black bear interrupted the hunt of a large six point buck. The second section is about two young outdoorsmen using their skills honed from the Pennsylvania woods to venture deep into a much different type of wilderness for a moose hunt in a mountain region of Alaska. The third section focuses on the camp activities of the remote hunting camp in the Kinzua forest. The remaining sections involve hunting turkey deer bear and snow shoe rabbit. Anyone who has ever enjoyed roaming in the Pennsylvania forest absorbing all of its natural wonder will be captivated by reading this book.
