Race and Politics Edward Clegg, 1960 Race and Politics Edward Marshall Clegg, 1960 **Race and politics** Edward Clegg, **Politics and Government in African States** Peter Duignan, Robert H. Jackson, 2022-08-01 Originally published in 1986 *Politics and Government in African States* 1960 1985 deals with the politics of sub Saharan African states since independence Each chapter considers the formal structure of government at the time of independence and traces the subsequent changes Each chapter also describes the development of the state machinery the civil service the parastatals defence and police forces party structure the political opposition and trade unions The economics of African states are dealt with insofar as they affect politics and government **The Politics and Economics of Decolonization in Africa** Andrew Cohen, 2017-05-26 The slow collapse of the European colonial empires after 1945 provides one of the great turning points of twentieth century history With the loss of India however the British under Harold Macmillan attempted to enforce a second colonial occupation supporting the efforts of Sir Andrew Cohen of the Colonial Office to create a Central African Federation Drawing on newly released archival material *The Politics and Economics of Decolonization* offers a fresh examination of Britain's central African territories in the late colonial period and provides a detailed assessment of how events in Britain Africa and the UN shaped the process of decolonization The author situates the Central African Federation which consisted of modern day Zambia Zimbabwe and Malawi in its wider international context shedding light on the Federation's complex relationships with South Africa with US Presidents Dwight Eisenhower and John F Kennedy and with the expanding United Nations The result is an important history of the last days of the British Empire and the beginnings of a more independent African continent **Political Power and Colonial Development in British Central Africa 1938-1960s** Alan Cousins, 2022-12-30 This book focuses on the late colonial history of Zambia and Malawi which between 1953 and 1963 were part of the Federation of Rhodesia and Nyasaland Although there were many links in their history and between their populations the two territories British protectorates under Colonial Office control contrasted greatly in power structures in their economies and in their development Europeans living in Northern Rhodesia with a power base in the mining economy were able to establish a dominant position in the territory after the Second World War By the 1950s it looked as though they would have with Southern Rhodesian Europeans a long hegemony gaining independence from Britain as a new Dominion which would mean control over both Northern Rhodesia and Nyasaland through the Federation Thus white ethnicity and ideology are essential factors in this book relating to the struggle for power from just before the Second World War up to the 1960s However crises in 1959 and 1960 led to the collapse of the Federation A second focus is on issues of social and economic development For Africans in Nyasaland and in rural parts of Northern Rhodesia there was a relatively weak economy in this period a pattern of limited cash crop production while many people became caught up in labour migration subordinate to powerful European dominated economic forces within southern Africa This meant that colonial policies aimed

at rural development were fundamentally flawed The book also looks at the actual nature of rural economic change as opposed to colonial policies and discusses alternative visions of the future which were put forward The argument is put that historians have often concentrated on the activities of the main nationalist movements in Nyasaland and Northern Rhodesia seeing them as bringing progress away from colonialism and towards independence Here there is an attempt to draw out the complexities of life and a variety of responses in the colonial situation progress coming in a number of forms but not always being achieved

H. Gann, Peter Duignan, 1969 A comprehensive study of recent African history examining the political social and economic effects of colonialism *Africa, Its Problems and Prospects* Army Library (U.S.), 1962 [U.D.I](#) Robert C. Good, 2015-03-08 Fearing that their civilization would be overwhelmed a tiny enclave of whites in Central Africa rebelled against a power which a little more than twenty five years before had ruled the largest empire the world had ever known Robert C Good provides an immensely readable account of the international politics of the Rhodesian rebellion which as he demonstrates put great political and financial strains on Great Britain placed Zambia in mortal danger almost destroyed the multiracial Commonwealth and promoted an unprecedented involvement of the United Nations in programs of dubious effectiveness and doubtful wisdom The complex sequence of events which led to the unilateral declaration of independence of November 1965 and the settlement of November 1971 are probed and the policies of the British and Rhodesian governments analyzed particularly the actions and responses of Harold Wilson Above all the Rhodesian crisis is placed in its international setting to show that the failure to impose a transition towards majority rule in Rhodesia has meant that a significant chance to reverse present trends in Southern Africa towards the hardening of racial attitudes and erosion of African confidence in Western intentions has been lost Originally published in 1973 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **The British Labour Movement and Imperialism** Billy Frank, Craig Horner, David Stewart, 2010-05-11 With Foreword by Tony Benn This edited collection explores the British labour movement's relationship with imperialism in the period 1800-1982 through nine inter connected articles Labour historians have tended to neglect the labour movement's interaction with imperialism preferring to concentrate on industrial

relations internal factionalism the Labour Party trade union alliance and economic policymaking In order to redress the balance this book takes a broad chronological overview of the subject and engages with key themes ranging from trade union interaction with empire and the influence of popular imperial culture to post war colonial development and responses to post colonialism Taking stock both of the labour movement in a broader context and of new approaches to the history of British imperialism the collection combines the work of leading authorities on labour history with recent scholarly research By blending this combination of economic social political and cultural analyses it makes a substantial contribution to the debates surrounding the legacy of imperialism and the evolution of the British labour movement The book will be of interest to academics researchers teachers and students of modern British political social economic and cultural history It will also appeal to Labour Party members and labour movement activists
