Race and Racism in Continental Philosophy Robert Bernasconi, 2003-06-18 The 15 original essays in *Race and Racism in Continental Philosophy* explore the resources that continental philosophy brings to debates about contemporary race theory and investigate the racism of some of Europe's most important thinkers. Attention is devoted to the influence of the work of W. E. B. Du Bois, Jean-Paul Sartre, Richard Wright, and Frantz Fanon. Questions about race in European philosophy, especially in the work of Nietzsche, Heidegger, Levin Strauss, and Arendt, are also considered. This volume provides an indispensable critical introduction to new perspectives on thinking about race and racism.

Philosophy of Race Naomi Zack, 2023-04-27 *Philosophy of Race: An Introduction* provides plainly written access to a new subfield that has been in the background of philosophy since Plato and Aristotle. The second edition is updated to include contemporary developments such as digital racism, metaphysical othering, and metaphysical racism, and the rise of populist movements. Its focus has also been expanded to address non-white racial groups in the Americas, Europe, and beyond, such as the Roma and Uighur people. Part I provides an overview of ideas of race and ethnicity in the philosophical canon, egalitarian traditions, race in biology, and race in American and Continental Philosophy. Part II addresses race as it operates in life through colonialism and development, social constructions, and institutions, racism, political philosophy, gender, and populist movements. This book constructs an outline that will serve as a resource for students, nonspecialists, and general readers in thinking, talking, and writing about philosophy of race. *Choice*, 2003 *American Philosophical Quarterly* Nicholas Rescher, 2004 On Race and Racism in America Roy Martinez, 2010-01-01 Given the racial complexity of the United States, not to mention the racism of its foundations and its persistence, why is it that the most influential white philosophers have not addressed the issue of race, its social construction, and myth, and the problems it raises on a daily basis? To answer this question, Roy Martinez, the editor of this volume, solicited contributions from eight of the most significant American philosophers working in the Continental and American pragmatist philosophical traditions. But there is no one answer; each contributor has a distinct perspective on the problem and provides an answer reflecting that perspective. Some approach the question in a personal manner by reflecting on how race has affected their own lives. Others resort to meta-analyses of features of philosophy as a discipline that account for its relative blindness to issues of race. Together, they shed light on an anomaly that distinguishes philosophy from the other humanities as well as the social sciences: a relative lack of attention to race compared with class and gender, and thus help us better understand how the mental frameworks within which scholars

operate can lead to differences in the subjects they take an interest in analyzing. Aside from the editor, the contributors are John D. Caputo, David Couzens Hoy, John Ladd, Joseph Margolis, Ladelle McWhorter, Shannon Sullivan, Georgia Warnke, and Cynthia Willett.

Race Robert Bernasconi, 2001-02-08 This volume provides an introduction to the concept of race within philosophy. It gives an overview of the most important contributions by continental philosophers to the understanding of race, focusing on Kant, Du Bois, Senghor, Sartre, and Schutz, as well as presenting a general review of recent philosophical discussions.

Critical Philosophy of Race Robert Bernasconi, 2023 The fifteen essays by distinguished philosopher of race Robert Bernasconi that are collected here demonstrate why the critical philosophy of race needs to take a historical turn. Genealogies of the concepts of both race and racism clarify why some of the dominant strategies for combatting racism tend to be ineffective. For example, the Boasian UNESCO strategy that highlights biology's rejection of race neglects cultural racism. Drawing on the work of Frantz Fanon, the late Sartre, and Michel Foucault, Robert Bernasconi argues for a holistic approach that integrates the concrete experience of racism faced by individuals into the study of institutional, structural, and systemic racism. His philosophical studies of such Black philosophers as Ottobah Cugoana, Antenor Firmin, and W. E. B. Du Bois contribute to challenging the dominant philosophical canon. This volume will be an essential resource for scholars and students interested in this resurgent topic.

The ^AOxford Handbook of Philosophy and Race Naomi Zack, 2016-12-01 The Oxford Handbook of Philosophy and Race provides up-to-date explanation and analyses by leading scholars in African American philosophy and philosophy of race. Fifty-one original essays cover major topics from intellectual history to contemporary social controversies in this emerging philosophical subfield that supports demographic inclusion and emphasizes cultural relevance.
