Race Ethnicity And Power A Comparative Study:

Race, Ethnicity and Power Donald G. Baker, 2024-01-01 First published in 1983 *Race Ethnicity and Power* focuses on contemporary race and ethnic relations in six countries and looks at the historical context by tracing how various forces and factors such as group power capabilities shaped present day ethnic and race relations It describes how English settlers and their descendants used their power historically to control major political economic and social structures and to shape the cultural policies of these countries It explains how ethnic and race relations are best understood by assessing the changing power capabilities of Anglo and non Anglo groups and shows how changes in group relations are the consequence of two major factors modification in group power resources and capabilities and changes in situational factors This book will be of interest to students of sociology political science ethnic studies and international relations Sport: Sport and power relations Eric Dunning, Dominic Malcolm, 2003 A collection of texts providing a useful resource for students in the field of sports studies Subject headings include approaches to the study of sport the development and structure of modern sport sport and power relations and major issues in contemporary sport Racial Conflict in Contemporary Society John Stone, 1985 Examination of race relations passing references to Australian Aboriginal context Race, Ethnicity, and Power in Ecuador Karem Roitman, 2009 Contenido Foxes and lions studying the upper classes Constructing identities the 2001 national census Economy etiquette and ethnicity defining Ecuadorian elites The Mestizo and the other ethnic narratives in Ecuador The port and mestizaje ethnic narratives in Guayaquil Learning mestizaje ethnic narratives in Quito Ethnic narratives and socioeconomic development Responsibility and change **Ssali: Power Back to the People**, 2023-06-02 The infamous Scramble for Africa resulted in random and unlikely borders that remain today The West partitioned territory for the sake of its short term goal of influence or mastery They gave little thought to the long running consequences for the Africans themselves This arbitrary carving up of Africa the colonial policy of divide and rule and the resultant segmental cleavages in most post colonial African states may be blamed for the horizontal inequalities conflicts and insecurity rampant since independence In Uganda as in many other African countries the most evident of such cleavages have been tribal and ethnic Recently there have been calls for constitutional reform that would devolve power to the tribal regions and revive the idea of federalism which was the organizing principle in the immediate aftermath of independence This book highlights the dynamics of ethnic politics in the post independence sub Saharan setting in general and the background meaning and relevance of the debate on ethnic federalism in Uganda in particular Part of the book covers Vick Lukwago Ssali s own experiences growing up in an independent but troubled Uganda However its central thesis is based on the voices of selected samples of ordinary people in ten different tribal areas of Uganda and what they comparatively think about the issue of federalism Is their loyalty growing towards the centre or fading outwards from the troubled state to their integral traditional and cultural units *Encyclopedia of Government and Politics* M. Antiracism John Solomos, 2024-11-18 While there has been a wealth of research and conversation about the role of racism in shaping our social political and economic structures antiracism its highly publicized counterpart has been very little studied discussed or debated Veteran race scholar John Solomos argues in this slim intervention that we urgently need to re focus research and activist agendas to address this gap in knowledge The core questions addressed in the book include what does antiracism mean in the contemporary environment How do states political institutions and civil society define and practise antiracism What is the role of alliances across race class and gender in shaping possible futures beyond racism Moving beyond the valuable work which has already uncovered the ways in which race and racism are made and re made these questions cut to how to develop meaningful political and policy initiatives framed by antiracist ideas and values If we hope to make sense of the evolution of contemporary racisms in the world around us in order to tackle them head on antiracism needs to be better understood

thinking and writing on history that Lerner has done in her entire career a summation of her life and work The chapters are divided into three sections each widely different from the others each revelatory of Lerner as a woman and a feminist We read first of Lerner's coming to consciousness as a Jewish woman There are moving accounts of her early life as a refugee in America her return to Austria fifty years after fleeing the Nazis to discover a nation remarkable both for the absence of Jews and for the anti-Semitism just below the surface her slow assimilation into American life and her decision to be a historian If the first section is personal the second focuses on more professional concerns Included here is a fascinating essay on nonviolent resistance tracing the idea from the Quakers such as Mary Dyer to abolitionists such as Theodore Dwight Weld the most mobbed man in America to Thoreau's essay Civil Disobedience then across the sea to Tolstoy and Gandhi before finally returning to America during the civil rights movement of the 1950s There are insightful essays on American Values and on the tremendous advances women have made in the twentieth century as well as Lerner's presidential address to the Organization of American Historians which outlines the contributions of women to the field of history and the growing importance of women as a subject of history The highlight of the final section of the book is Lerner's bold and innovative look at the issues of class and race as they relate to women an essay that distills her thinking on these difficult subjects and offers a coherent conceptual framework that will prove of lasting interest to historians and intellectuals A major figure in women's studies and long term activist for women's issues a founding member of NOW and a past president of the Organization of American Historians Gerda Lerner is a pioneer in the field of Women's History and one of its leading practitioners Why History Matters is the summation of the work and thinking of this distinguished historian
