**Racial Conflict and Violence in the Labor Market** Cliff Brown, 1998 Taking one of the many strikes during the period as a case study argues that the migration of black workers to northern US cities looking for work during World War I and the practice and pattern of racial discrimination by the mainstream labor unions created a split labor market in which black workers had no choice but to scab on strikers Focuses on community level race relations during the strike and also considers the impact of local governments repressing labor the organizational strength of local union and employers efforts to inflame racial tension Developed from a 1996 Ph D dissertation for Emory University Annotation copyrighted by Book News Inc Portland OR

*Reverse Discrimination* Fred L. Pincus, 2003 Pincus assesses the nature and scope of reverse discrimination in the United States today exploring what effect affirmative action actually has on white men

**Readings for Diversity and Social Justice** Maurianne Adams, 2000 These essays include writings from Cornel West Michael Omi Audre Lorde Gloria Anzaldua and Michelle Fine The essays address the multiplicity and scope of oppressions ranging from ableism to racism and other less well known social aberrations

*Ethnicity, Nationalism and Conflict in and After the Soviet*

Union Valery Tishkov, 1997 Valery Tishkov is a well known Russian historian and anthropologist and former Minister of Nationalities in Yeltsin's government This book draws on his inside knowledge of major events and extensive primary research Tishkov argues that ethnicity has a multifaceted role it is the most accessible basis for political mobilization a means of controlling power and resources in a transforming society and therapy for the great trauma suffered by individuals and groups under previous regimes This complexity helps explain the contradictory nature and outcomes of public ethnic policies based on a doctrine of ethno nationalism

The Enigma of Ethnicity Wilbur Zelinsky, 2001-04 In *The Enigma of Ethnicity* Wilbur Zelinsky draws upon more than half a century of exploring the cultural and social geography of an ever changing North America to become both biographer and critic of the recent concept of ethnicity In this ambitious and encyclopedic work he examines ethnicity's definition evolution significance implications and entanglements with other phenomena as well as the mysteries of ethnic identity and performance Zelinsky begins by examining the ways in which ethnic groups and ethnicity have been defined his own definitions then become the basis for the rest of his study He next focuses on the concepts of heterolocalism the possibility that an ethnic community can exist without being physically merged and personal identity the relatively recent idea that one can concoct one's own identity In his final chapter which is also his most provocative he concentrates on the multifaceted phenomenon of multiculturalism and its relationship to ethnicity Throughout he includes a close look at African Americans Hispanics and Jews as well as such less studied groups as suburbanized Japanese Cubans in Washington Koreans Lithuanian immigrants in Chicago Estonians in New Jersey Danish Americans in Seattle and Finns Reasonable nonpolemical and straightforward Zelinsky's text is invaluable for readers wanting an in depth overview of the literature on ethnicity in the United States as well as a well thought out understanding of the meanings and dynamics of ethnic groups ethnicity and multiculturalism

**Ensuring the Success of Latino Males in Higher Education** Victor B. Sáenz, Luis Ponjuán, Julie L. Figueroa, 2023-07-03 Latino males are effectively vanishing from the American higher education pipeline Even as the number of Latinas/os attending college has actually increased steadily over the last few decades the proportional representation of Latino males continues to slide relative to their Latina female counterparts The question of why Latino males are losing ground in accessing higher education relative to their peers is an important and complex one and it lies at the heart of this book There are several broad themes highlighted catalogued along with the four dimensions of policy theory research and practice The contributors to this book present new research on factors that inhibit or promote Latino success in both four year institutions and community colleges in order to inform both policy and practice They explore the social cultural factors peer dynamics and labor force demands that may be perpetuating the growing gender gap and consider what lessons can be learned from research on the success of Latinas This book also closely examines key practices that enable first generation Latino male undergraduates to succeed which may seem counterintuitive to institutional expectations and preconceived notions of student behavior Using narrative data the book also

explores the role of family in persistence outlines how Latino men conceptualize fulfilling expectations negotiate the emasculation of the educational process and how they confront racialization in the pursuit of a higher education uncovers attitudes to help seeking that are detrimental to their success and analyzes how those who succeed and progress in college apply their social capital whether aspirational navigational social linguistic familial or resistant While uncovering the lack of awareness at all levels of our colleges and universities about the depth and severity of the challenges facing Latino males this book provides the foundation for rethinking policy challenges leaders to institutionalize male focused programs and services and presents data to inform needed changes in practice for outreach and retention Working-Class White Monica McDermott, 2006-07-28 Publisher Description Flak-Catchers Lindsey Lupo, 2010-12-02 Flak Catchers explores the ways in which riot commissions the institutional bodies appointed by an executive in the aftermath of a race riot to determine a riot timeline investigate causes and offer prescriptions for change have dealt with racial violence in the United States over the last century In studying five riots and their commissions Chicago 1919 Harlem 1935 Los Angeles 1965 USA 1967 and Los Angeles 1992 this book shows that riot commissions only serve to give the appearance of strong and responsive government action during uncertain times They primarily benefit the instituting body by focusing on a restoration of law and order while undermining any larger civil rights message However this book also challenges the prevalent idea that riot commissions are all the same by revealing how riot commissions have changed over the last century shifting in their prominence content and focus After the 1968 Kerner Commission which studied the 1967 summer riots it has become increasingly common for the riot commission to fail to answer fundamental questions posed by the crisis **Hate Crimes** Barbara Perry, 2009-03-05 This book offers a comprehensive approach to understanding hate crime its causes consequences prevention and prosecution Hate crimes continue to be a pervasive problem in the United States The murder of Matthew Shepard the lynching of James Byrd the murderous rampage of Benjamin Smith and anti Muslim violence remind us that incidence of deadly bigotry is not only a recurring chapter in U S history but also a part of our present day world Contrary to common belief hate mongers who commit crimes are rarely members of the Ku Klux Klan or a skinhead group In fact fewer than 5 percent of identifiable offenders are members of organized hate groups Yet rather than being an individual crime hate crime represents an assault against all members of stigmatized and marginalized communities To fully understand the phenomenon of hate crime and reduce its incidence it is necessary to clearly define the term itself to examine the victims and the offenders and to evaluate the consequences and harms of hate crimes This comprehensive five volume set carefully addresses the disturbing variety and incidence of hate crimes exposing their impacts on the broader realms of crime punishment individual communities and society The contributing authors and editors pay critical attention to cutting edge topics such as online hate crimes hate based music anti Latino hostilities Islamophobia hate crimes in the War on Terror school based anti hate initiatives and more The final volume of Hate Crimes provides valuable food for thought on possible legislative educational social policy or

community organizational responses to the varied forms of hate crime

**Racial Conflicts and Violence in the Labor Market** Cliff Brown, 2014-01-09 This book focuses on community level race relations during the 1919 Steel Strike when intense job competition contributed to racial conflict among the nation's steel workers. As the Great Migration brought thousands of black workers to northern cities, their lower labor costs generated racially split labor markets in the industrial sector. Further, the discriminatory policies of labor unions forced many blacks to serve as strike breakers during periods of class conflict. As a result, the migration heightened racial conflict and undercut important union organizing initiatives. The 1919 Steel Strike illustrates how racial divisions crippled many American unions, a pattern that helps to explain the demise of organized labor during the 1920s. No previous studies of the 1919 Steel Strike have systematically compared community processes to determine how local events shaped the strike's outcome. Despite the failure of the 1919 Steel Strike, the varied experiences of workers in different communities reveal much about the causes of racial conflict and the possibilities of interracial solidarity. This study finds that patterns of black migration, local government repression of labor, the organizational strength of local unions, and employers' efforts to inflame racial tension all help to explain community level variation in interracial solidarity and conflict. Ph.D. dissertation, Emory University, 1996, revised with new preface.

*Becoming Neighbors in a Mexican American Community* Gilda L. Ochoa, 2010-01-01 On the surface, Mexican Americans and Mexican immigrants to the United States seem to share a common cultural identity but often make uneasy neighbors. Discrimination and assimilationist policies have influenced generations of Mexican Americans so that some now fear that the status they have gained by assimilating into American society will be jeopardized by Spanish-speaking newcomers. Other Mexican Americans, however, adopt a position of group solidarity and work to better the social conditions and educational opportunities of Mexican immigrants. Focusing on the Mexican origin working class city of La Puente in Los Angeles County, California, this book examines Mexican Americans' everyday attitudes toward and interactions with Mexican immigrants, a topic that has so far received little serious study. Using in-depth interviews, participant observations, school board meeting minutes, and other historical documents, Gilda Ochoa investigates how Mexican Americans are negotiating their relationships with immigrants at an interpersonal level in the places where they shop, worship, learn, and raise their families. This research into daily lives highlights the centrality of women in the process of negotiating and building communities and sheds new light on identity formation and group mobilization in the U.S. and on educational issues, especially bilingual education. It also complements previous studies on the impact of immigration on the wages and employment opportunities of Mexican Americans.

**America Becoming** National Research Council, Commission on Behavioral and Social Sciences and Education, 2001-02-23 The 20th Century has been marked by enormous change in terms of how we define race. In large part, we have thrown out the antiquated notions of the 1800s, giving way to a more realistic sociocultural view of the world. The United States is perhaps more than any other industrialized country distinguished by the size and diversity of its racial and

ethnic minority populations Current trends promise that these features will endure Fifty years from now there will most likely be no single majority group in the United States How will we fare as a nation when race based issues such as immigration job opportunities and affirmative action are already so contentious today In America Becoming leading scholars and commentators explore past and current trends among African Americans Hispanics Asian Americans and Native Americans in the context of a white majority This volume presents the most up to date findings and analysis on racial and social dynamics with recommendations for ongoing research It examines compelling issues in the field of race relations including Race and ethnicity in criminal justice Demographic and social trends for Hispanics Asian Americans and Native Americans Trends in minority owned businesses Wealth welfare and racial stratification Residential segregation and the meaning of neighborhood Disparities in educational test scores among races and ethnicities Health and development for minority children adolescents and adults Race and ethnicity in the labor market including the role of minorities in America s military Immigration and the dynamics of race and ethnicity The changing meaning of race Changing racial attitudes This collection of papers compiled and edited by distinguished leaders in the behavioral and social sciences represents the most current literature in the field Volume 1 covers demographic trends immigration racial attitudes and the geography of opportunity Volume 2 deals with the criminal justice system the labor market welfare and health trends Both books will be of great interest to educators scholars researchers students social scientists and policymakers Race and US Foreign Policy Mark Ledwidge,2011-09-05 The book provides cutting edge insight into the racial aspect of US foreign affairs Public / Community Health and Nursing Practice Christine L. Savage,2019-10-10 How do you solve population level health problems and develop appropriate nursing interventions This unique problem solving case based approach shows you how You ll encounter different case studies in every chapter that explore concepts such as community assessments public health policy and surveillance Step by step you ll develop the knowledge and skills you need to apply public health principles across a variety of health care settings special populations and scenarios No Fire Next Time Patrick D. Joyce,2018-08-06 Why did Black Korean tensions result in violent clashes in Los Angeles but not in New York City In a book based on fieldwork and on a nationwide database he constructed to track such conflicts Patrick D Joyce goes beyond sociological and cultural explanations No Fire Next Time shows how political practices and urban institutions can channel racial and ethnic tensions into protest or alternately leave them free to erupt violently Few encounters demonstrate this connection better than those between African Americans and Korean Americans Cities like New York where politics is noisy contentious and involves people at the grassroots have seen extensive Black boycotts of Korean owned businesses usually small grocery stores African Americans in Los Angeles have sustained few long term boycotts of Korean American businesses but the absence of routine contention there goes hand in hand with the large scale riots of 1992 and continuous acts of individual violence In demonstrating how conflicts between these groups were intimately tied to their political surroundings this book yields practical lessons for the future City governments can do

little to fight widening economic inequality in an increasingly diverse nation Joyce writes But officials and activists can restructure political institutions to provide the foundations for new multiracial coalitions

**Comparative Education, Terrorism and Human Security** W. Nelles, 2003-12-18 Policy decisions in education have changed drastically as a result of the recent threats to our international and national security In this timely and compelling collection authors discuss the significance of policy decisions on education systems and argue that all forms of violence including terrorism are often reproduced through education Authors incorporate case studies from a broad spectrum of countries to make a case for peace building alternatives and non military security cooperation Comparative Education Terrorism and Human Security will highlight education systems around the globe that sustain violence will bring together human security and preventive diplomacy research to predict future trends will explore foreign policy implications that could lead to non violent interventions abroad and will provide teachers and policymakers with relevant reflections on reform This book arrives at a time when many of us are wondering what education systems can do to eliminate perpetuate violence and will be the only one of its kind to address these questions on a global scale
