Race Traitor 12:

Race Struggles Theodore Koditschek, Sundiata Keita Cha-Jua, Helen A. Neville, 2009 The essays in this collection start with the premise that although race like class and gender is socially constructed all three categories have been shaped profoundly by their context in a capitalist society Race in other words is a historical category that develops not only in dialectical relation to class and gender but also in relation to the material conditions in which all three are forged In addition to discussing and analyzing various dimensions of the African American experience contributors also consider the ways in which race plays itself out in the experience of Asian Americans and in the very different geopolitical environments of the British Empire and postcolonial Africa Contributors are Pedro Caban Sundiata Keita Cha Jua David Crockett Theodore Koditschek Scott Kurashige Clarence Lang Minkah Makalani Helen A Neville Ibitola O Pearce David Roediger Monica M White and Jeffrey Williams

But Now I See Fred Hobson, 1999-04-01 The term conversion narrative usually refers to a particular form of expression that arose in Puritan New England in the seventeenth century In that sense the purely religious the conversion narrative belongs to a rather remote history But in this lucid pathbreaking work Fred Hobson uses the expression in another sense in the realm of the secular to describe a much more recent phenomenon one originating in the American South and marking a new mode of southern self expression not seen until the 1940s Hobson applies the term racial conversion narrative to several autobiographies or works of highly personal social commentary by Lillian Smith James McBride Dabbs Katharine Du Pre Lumpkin Sarah Patton Boyle Will Campbell Larry L King Willie Morris Pat Watters and other southerners books written between the mid 1940s and the late 1970s in which the authors all products of and willing participants in a harsh segregated society confess racial wrongdoings and are converted in varying degrees from racism to something approaching racial enlightenment Indeed the language of many of these works is Hobson points out the language of religious conversion sin guilt blindness seeing the light repentance redemption and so forth Hobson also looks at recent autobiographical volumes by Ellen Douglas Elizabeth Spencer and Rick Bragg to show how the medium persists if in a somewhat different form even at the very end of the twentieth century But Now I See is a study both of this particular variety of the southern impulse to self examination and of those who seem to have retained the habit of seeking redemption even if of a secular variety Departing from the old vertical southern religion salvation centered with heaven as its goal these racial converts embrace a horizontal religion which holds that getting right with man is at least as important as getting right with God A refreshingly original treatment of racial change in the South Hobson's provocative work introduces a new subgenre in the field of southern literature Anyone interested in the history and literature of the American South will be fascinated by this searching volume

The Enemy Within David Horowitz, 2021-04-06 The Enemy Within is a book for all patriots who understand that our country is in a fight for its life MARK LEVIN America on the Brink A questionable election The president of the United States illegally impeached twice and silenced The First Amendment hanging by a thread The national heritage

under attack Mob violence America is on the brink of becoming a one party dictatorship How did this happen The Enemy Within How a Totalitarian Movement Is Destroying America provides the answer David Horowitz has been the b te noire of the Left for decades on account of his courageous revelations of their aims and tactics and now he sounds the alarm the barbarians are already inside the gates Horowitz lays out how we have ended up in the worst national crisis since the Civil War He details The Left s embrace of Critical Race Theory and Cultural Marxism the underpinnings of their totalitarian ideology The decades long infiltration of our education system by ideologies hostile to America our institutions and our freedom Why the Obama administration marked a point of no return in the division of America into two irreconcilable political factions The Democrats unprincipled campaign to destroy a duly elected U S president Their political exploitation of the coronavirus pandemic Their complicity in the riots of the summer of 2020 which left twenty five dead injured two thousand police officers caused billions of dollars in property damage and revealed the fragility of our civic order As Abraham Lincoln so presciently warned on the eve of America s last existential crisis If destruction be our lot we must ourselves be its author and finisher As a nation of freemen we must live for all time or die by suicide In The Enemy Within David Horowitz provides a spot on assessment of the threat to the American Republic and points to an escape route while there s still time

Critical White Studies Richard Delgado, Jean Stefancic, 1997 No longer content with accepting whiteness as the norm critical scholars have turned their attention to whiteness itself In Critical White Studies Looking Behind the Mirror numerous thinkers including Toni Morrison Eric Foner Peggy McIntosh Andrew Hacker Ruth Frankenberg John Howard Griffin David Roediger Kathleen Heal Cleaver Noel Ignatiev Cherrie Moraga and Reginald Horsman attack such questions as How was whiteness invented and why How has the category whiteness changed over time Why did some immigrant groups such as the Irish and Jews start out as nonwhite and later became white Can some individual people be both white and nonwhite at different times and what does it mean to pass for white At what point does pride in being white cross the line into white power or white supremacy What can whites concerned over racial inequity or white privilege do about it Science and pseudoscience are presented side by side to demonstrate how our views on whiteness often reflect preconception not fact For example most scientists hold that race is not a valid scientific category genetic differences between races are insignificant compared to those within them Yet the one drop rule whereby those with any nonwhite heritage are classified as nonwhite persists even today As the bell curve controversy shows race concepts die hard especially when power and prestige lie behind them A sweeping portrait of the emerging field of whiteness studies Critical White Studies presents for the first time the best work from sociology law history cultural studies and literature Delgado and Stefancic expressly offer critical white studies as the next step in critical race theory In focusing on whiteness not only do they ask nonwhites to investigate more closely for what it means for others to be white but also they invite whites to examine themselves more searchingly and to look behind the mirror

However the contributors work through the discomfort confusion and frustration in order to have honest conversations about race and racism. The narratives from Chicanas Indigenous Asian American African American and White women academicians explore our past present and future what separates us and how to communicate honestly in an effort to become allies. Chapters discuss the need to interrupt and disrupt the norms of interaction and engagement by allowing for the messiness of discomfort in frank discussion. A Promise and a Way of Life Becky W. Thompson, 2001 Beginning with the diverse catalysts that started these activists on their journeys this book demonstrates the contributions and limitations of white antiracism in key social justice movements. **BOOK JACKET** *Street Harassment as Everyday Violence* Melinda A. Mills, 2022-08-09 In *Street Harassment as Everyday Violence* Melinda A. Mills investigates women's experiences with street harassment recognizing this phenomenon as a form of everyday violence. The author follows feminist scholars to consider the ways that silence can potentially if only partially protect women from verbally assaultive men who harass women in public. This violence both reveals and conceals itself in the discourses of silence about and during street harassment. It maps onto and reflects the web of violence that proves persistent and difficult to dismantle. This work operates as an initial intervention by way of recognition of street harassment as a problem that hides in plain sight. *Truth and Revolution* Michael

Staudenmaier, 2012-05-15 A poignant compelling history of one of the most important radical groups you've never heard of

Developing Cultural Humility Miguel E. Gallardo, 2013-01-18 *Developing Cultural Humility* offers a unique look into the journeys of psychologists striving towards an integration of multiculturalism in their personal and professional lives. Contributing authors representing a mix of cultural backgrounds but stereotypically identified as White engage in thoughtful dialogue with psychologists from underrepresented communities who are identified as established and respected individuals within the multicultural field. The contributing authors discuss both the challenges and rewards they experienced in their own journeys and how they continue to engage in the process of staying connected to their cultural identity and to being culturally responsive. In addition psychologists who represent historically disenfranchised communities have similarly reflected on their own journey while offering commentary to the personal stories of White psychologists. This text is useful for stimulating discussions about privilege power and the impact race has on either bringing people together or creating more

distance whether intentionally or unintentionally It demonstrates to readers how to engage in the process of examining one's own culture in more intentional ways and discusses the implications as we move towards engaging in more dialogue around multicultural issues
