Racial Myth In English History:

Racial Myth in English History Hugh A. MacDougall, 1982 Myths of origin enable people to locate themselves in time and space They offer an explanation of the unknown and hallow traditions by linking them to heroic events and personages of the distant past In addition they form the ground for belief systems or ideologies which providing a moral validation for attitudes and activities bind men together in a society writes the author who in his interesting and solidly based short study synthesizes several generations of English and continental scholarship in a way that enables a broad readership to obtain a clearer recognition of those elements in accepted mythologies which both unite and divide men Published in English

Racial Myth in English History Hugh A. MacDougall, *The Idea of English Ethnicity* Robert J. C. Young, 2007-12-03 The Idea of English Ethnicity Robert Young has written a compelling and thorough textual history of English ethnicity and its discursive relation to the history of racial theory Comprehensive carefully considered and clearly written this book sets the standard against which any future study of Englishness will be assessed The bar has been lifted a couple of notches higher David Theo Goldberg University of California What is Englishness Robert J C Young asks and in The Idea of English Ethnicityhe offers an impressively well researched and eminently readable answer Werner Sollors Harvard University

The British Isles Hugh Kearney, 2006-07-27 New edition of the classic account of Britain from pre Roman times to the present *English Ethnicity and Race in Early Modern Drama* Mary Floyd-Wilson, 2003-02-20 In English Ethnicity and Race in Early Modern Drama first published in 2003 Mary Floyd Wilson outlines what we might call scientific conceptions of racial and ethnic differences in sixteenth and seventeenth century English writing Drawing on classical and contemporary medical texts histories and cosmographies Floyd Wilson demonstrates that Renaissance understandings of racial and ethnic identities contradicted many modern stereotypes concerning difference Southerners Africans in particular were identified as dispassionate cool tempered and wise whereas the more northern English were understood to be unruly impressionable and slow witted Concerned with the unflattering and constraining implications of this classically derived knowledge English writers laboured to reinvent ethnology to their own advantage a labour that paved the way for the invention of more familiar racial ideas Floyd Wilson highlights these English revisionary efforts in her surprising and transformational readings of the period s drama including Marlowe s Tamburlaine Jonson s The Masque of Blackness and Shakespeare s Othello and Cymbeline

Classical Myths and Legends in the Middle Ages and Renaissance H. David Brumble, 1998-02-01 While numerous classical dictionaries identify the figures and tales of Greek and Roman mythology this reference book explains the allegorical significance attached to the myths by Medieval and Renaissance authors Included are several hundred alphabetically arranged entries for the gods goddesses heroes heroines and places of classical myth a **Race and Ethnicity in Anglo-Saxon Literature** Stephen Harris, 2004-06-01 What makes English literature English This question inspires Stephen Harris s wide ranging study of Old English literature From Bede in the eighth century to Geoffrey of

Monmouth in the twelfth Harris explores the intersections of race and literature before the rise of imagined communities Harris examines possible configurations of communities illustrating dominant literary metaphors of race from Old English to its nineteenth century critical reception Literary voices in the England of Bede understood the limits of community primarily as racial or tribal in keeping with the perceived divine division of peoples after their languages and the extension of Christianity to Bede's Germanic neighbours was effected in part through metaphors of family and race Harris demonstrates how King Alfred adapted Bede in the ninth century how both exerted an effect on Archbishop Wulfstan in the eleventh and how Old English poetry speaks to images of race

The Idea of Anglo-Saxon England in Middle English Romance

Robert Allen Rouse, 2005 Using a variety of texts but the Matter of England romances in particular the author argues that they show a continued interest in the Anglo-Saxon past from the localised East Sussex legend of King Alfred that underlies the twelfth century Proverbs of Alfred to the institutional interest in the Guy of Warwick narrative exhibited by the community of St Swithun's Priory in Winchester during the fifteenth century they are part of a continued cultural remembrance that encompasses chronicles folk memories and literature

BOOK JACKET Vernacular Verse Histories in Early Medieval England and Francia Catalin Taranu, 2021-03-08 In a provocative take on Germanic heroic poetry Taranu reads texts like Beowulf Maldon and the Waltharius as participating in alternative modes of history writing that functioned in a larger ecology of narrative forms including Latinized Christian history and the biblical epic These modes employed the conceit of their participating in a tradition of oral verse for a variety of purposes from political propaganda to constructing origin myths for early medieval nationhood or heroic masculinity and sometimes for challenging these paradigms The more complex of these historical visions actively meditated on their own relationship to truthfulness and fictionality while also performing sophisticated and often subversive cultural and socio-emotional work for its audiences By rethinking canonical categories of historiographical discourse from within medieval textual productions Vernacular Verse Histories in Early Medieval England and Francia The Bard and the Rag Picker aims to recover a part of the wide array of narrative poetic forms through which medieval communities made sense of their past and structured their socio-emotional experience

English Modernism, National Identity and the Germans, 1890-1950

Petra Rau, 2016-05-13 This is the first systematic study to trace the way representations of Germanness in modernist British literature from 1890 to 1950 contributed to the development of English identity Petra Rau examines the shift in attitudes towards Germany and Germans from suspicious competitiveness in the late Victorian period to the aggressive hostility of the First World War and the curious inconsistencies of the 1930s and 1940s These shifts were no simple response to political change but the result of an anxious negotiation of modernity in which specific aspects of Englishness were projected onto representations of Germans and Germany in English literature and culture While this incisive argument clarifies and deepens our understanding of cultural and national politics in the first half of the twentieth century it also complicates current debates surrounding race and otherness in cultural

studies Authors discussed include major figures such as Conrad Woolf Lawrence Ford Forster and Bowen as well as popular or less familiar writers such as Saki Graham Greene and Stevie Smith Accessibly written and convincingly argued Rau s study will not only be an important book for scholars but will serve as a valuable guide to undergraduates working in modernism literary history and European cultural relations
