Racialization Of America

Racialization Of America:

The Racialization of America Yehudi O. Webster, 1993-12-15 In the most comprehensive analysis of race class and ethnicity yet attempted Yehudi Webster challenges the whole notion of racial classification put forward by both government and academics The Racialization of America s central argument is that to first classify citizens as blacks and whites and then describe their relations based on this division violates basic logic and creates an inevitably incoherent and self defeating system of race relations It is time at last to move toward a more sophisticated view of human interaction

Race and Racialization Tania Das Gupta, 2007 This provocative volume will influence the way people think of race and racialization It provides a thorough examination of these complex and intriguing subjects with historical comparative and international contributions Edited as a theoretically strong cohesive whole this book unites a remarkable ensemble of academic thinkers and writers from a diversity of backgrounds Themes of ethnocentrism cultural genocide conquest and colonization disease and pandemics slavery and the social construction of racism run throughout

Asian American Racialization and the Politics of U.S. Education Wayne Au, 2024-08-01 Asian American Racialization and the Politics of U S Education explores issues surrounding Asian American education in the United States and how they relate to educational theory policy and practice The book challenges stereotypes and assumptions that pervade U S education restores absent histories of Asian American people in this context and provides concrete examples of educational actions and policies that enable anti racist educational work to go on It argues that understanding Asian American racialization in the U S is essential to fighting white supremacy in schools and communities Utilizing frameworks from Asian American Studies and Cultural Studies this book will be important reading for those interested in doing anti racist liberatory and abolitionist educational work In particular it will be relevant for those working or researching in the fields of Asian American Education Multicultural Education Social Justice Education and Critical Education

The Melancholy of Race Anne Anlin Cheng, 2000-11-30 In this groundbreaking interdisciplinary study Anne Anlin Cheng argues that we have to understand racial grief not only as the result of racism but also as a foundation for racial identity The Melancholy of Race proposes that racial identification is itself already a melancholic act a social category that is imaginatively supported through a dynamic of loss and compensation by which the racial other is at once rejected and retained Using psychoanalytic theories on mourning and melancholia as inroads into her subject Cheng offers a closely observed and carefully reasoned account of the minority experience as expressed in works of art by and about Asian Americans and African Americans She argues that the racial minority and dominant American culture both suffer from racial melancholia and that this insight is crucial to a productive reimagining of progressive politics Her discussion ranges from Flower Drum Song to M Butterfly Brown v Board of Education to Anna Deavere Smith s Twilight and Invisible Man to The Woman Warrior in the process demonstrating that racial melancholia permeates our fantasies of citizenship assimilation and social health Her investigations reveal the common interests that social legal and literary

histories of race have always shared with psychoanalysis and situates Asian American and African American identities in relation to one another within the larger process of American racialization A provocative look at a timely subject this study is essential reading for anyone interested in race studies critical theory or psychoanalysis Race, Class, and the State in Contemporary Sociology Jack Niemonen, 2002 Situating Wilson's work on race and class in the overall contexts of sociology and radical politics this book considers the contribution of and the debate surrounding each of his major works including *The Declining Significance of Race* *The Truly Disadvantaged* and *When Work Disappears* The crucial place of segregation in the critiques of Wilson's theory is emphasized and the role of the state is considered Annotation copyrighted by Book News Inc Portland OR

Race and Identity in Hispanic America Patricia Reid-Merritt, Michael S. Rodriguez, 2020-04-03 This book offers a historical and comparative overview of the evolution of racial classifications in the United States Latin America and the Caribbean The Hispanicization of America is precipitating a paradigm shift in racial thinking in which race is no longer defined by distinct characteristics but rather is becoming synonymous with ethnic cultural identity Traditionally assimilation has been conceived of as a unidirectional and racialized phenomenon Newly arrived immigrant groups or longstanding minority indigenous populations were Americanized in confining their racial and ethnic natures to the private sphere and adopting in the public sphere the cultural mores norms and values of the dominant cultural racial group In contrast the Hispanicization of America entails the horizontal assimilation of various groups from Spanish speaking countries throughout the Western Hemisphere and Caribbean into a pan ethnic Hispanic Latino identity that also challenges the privileged position of whiteness as the primary and exclusive referent for American identity Instead of focusing on one Hispanic group ethnic identity or region this book chronicles the development of racial identity across the largest Hispanic groups throughout the United States
