Women, Horseracing and Gender Deborah Butler, 2017-08-14 How do the class and gender inequalities found in horseracing affect the working practices of women within the industry Drawing on the work of Bourdieu and his concepts of field capital and habitus this book shows the inequalities that are prevalent within the world of racing both historically and currently by illustrating the classed and gendered nature of racing and how it has developed since the eighteenth century when it was the sport of the aristocracy Using research obtained through her year long ethnographic study of a racing yard Deborah Butler demonstrates that the racing field is an arena of power conflicts and that men and women who work in racing acquire a contradictorily gendered racing habitus This is achieved by learning certain elements in a formal setting but mainly informally by doing developing practical skills and participating in a gendered community of practice For female stable staff this means adapting their behaviour and working practices in order to be accepted as one of the lads This book will appeal to both scholars and students of the sociology of sport the sociology of work and gender studies

merely reflecting inequality sport via social agents interactions with sporting spaces is actively involved in producing reproducing sustaining and indeed resisting various manifestations of inequality The experiences of marginalised groups can act as a resource for explaining contemporary political struggles over what sport means how it should be played and by whom and its place within wider society Central to this collection is the argument that the dynamics of cultural identities are contextually contingent influenced heavily by time and place and the extent to which they are embedded in the culture of their geographic location They also come to function differently within certain sites and institutions be it in one s everyday routine or leisure pursuits such as sport Among the themes and issues explored by the contributors to this volume are social inclusion and exclusion in relation to class race and ethnicity gender and sexuality social identities and authenticity social policy deviance and fandom This book was published as a special issue of *Sport in Society*
