Racismo Algo Mas Que Discriminacion:

Afro-Latin America, 1800-2000 George Reid Andrews, 2004-06-24 While the rise and abolition of slavery and ongoing race relations are central themes of the history of the United States the African diaspora actually had a far greater impact on Latin and Central America More than ten times as many Africans came to Spanish and Portuguese America as the United States In this the first history of the African diaspora in Latin America from emancipation to the present George Reid Andrews deftly synthesizes the history of people of African descent in every Latin American country from Mexico and the Caribbean to Argentina He examines how African peoples and their descendants made their way from slavery to freedom and how they helped shape and responded to political economic and cultural changes in their societies Individually and collectively they pursued the goals of freedom equality and citizenship through military service political parties civic organizations labor unions religious activity and other avenues Spanning two centuries this tour de force should be read by anyone interested in Latin American history the history of slavery and the African diaspora as well as the future of Latin America

BOOK JACKET Our Cry for Life Maria Pilar Aquino, 2002-11-26 **Acculturation and Psychological Adaptation** Vanessa S. Castro, 2003-01-30 This volume addresses the psychological impact of interethnic contact and acculturation in Latin American settings focusing on the effects of acculturation on self esteem among adolescents Opening with an account of relevant theoretical and empirical literature on interethnic contact and acculturation this book represents an acid test of the cross cultural applicability of theory and method largely derived from research on acculturation to North American and European settings Much research has focused on acculturation processes among ethnic immigrants and ethnic minorities leading to the impression that host or majority groups remain unchangeable during acculturation By contrast this volume shows that psychological changes occur in all groups involved in the contact reinforcing the idea that acculturation is a special case of mutual influence This book will be of special interest for researchers scholars or students seeking to understand the acculturation process outside North America and Europe Strong evidence is presented showing the development of positive ties with both one's own and other relevant groups provides a more solid basis for self esteem than relinquishing ties to the ethnic group of reference
