Drawing on reflective personal narrative experiential research and critical theoretical engagement this collection connects localized experiences with broader structural and systemic forms of intersectional racism These detailed examinations of the various forms of racism faced by immigrants and Indigenous people living and working in Southern Alberta reveal how institutional racism continues to saturate modern Canadian culture and practice *Climate Change Is Racist* Jeremy Williams, 2021-06-03 LONGLISTED FOR THE JAMES CROPPER WAINWRIGHT PRIZE LONGLIST 2022 Really packs a punch Aja Barber author of Consumed The Need for Collective Change Colonialism Climate Change and Consumerism Will open the minds of even the most ardent denier of climate change and or systemic racism If there s one book that will help you to be an effective activist for climate justice it s this one Dr Shola Mos Shogbamimu author of This is Why I Resist Accessible Poignant Challenging Nnimmo Bassey environmentalist and author of To Cook a Continent Destructive Extraction and the Climate Crisis in Africa When we talk about racism we often mean personal prejudice or institutional biases Climate change doesn t work that way It is structurally racist disproportionately caused by majority White people in majority White countries with the damage unleashed overwhelmingly on people of colour The climate crisis reflects and reinforces racial injustices In this eye opening book writer and environmental activist Jeremy Williams takes us on a short urgent journey across the globe from Kenya to India the USA to Australia to understand how White privilege and climate change overlap We ll look at the environmental facts hear the experiences of the people most affected on our planet and learn from the activists leading the change It s time for each of us to find our place in the global struggle for justice *Racism and social change in the Republic of Ireland* Bryan Fanning, 2018-09-30 Now in its second edition Racism and Social Change in the Republic of Ireland provides an original and challenging account of racism in twenty first century Irish society and locates this in its historical political sociological and policy contexts It includes specific case studies of the experiences of racism in twenty first century Ireland alongside a number of historical case studies that examine how modern Ireland came to marginalize ethnic minorities Various chapters examine responses by the Irish state to Jewish refugees before during and after the Holocaust asylum seekers and Travellers Other chapters examine policy responses to and academic debates on racism in Ireland A key focus of the various case studies is upon the mechanics of exclusion experienced by black and ethnic minorities within institutional processes and of the linked challenge of taking racism seriously in twenty first century Ireland **Revolutionary Change and Democratic Religion** Celucien L. Joseph, 2020-04-15 In Revolutionary Change and Democratic Religion Celucien Joseph provides a fresh and careful reexamination of Haiti s intellectual history by focusing on the ideas and writings of five prominent thinkers and public intellectuals Toussaint Louverture Joseph Antenor Firmin Jacques Roumain Dantes Bellegarde and Jean Price Mars The book articulates a twofold argument First of all Haiti has produced a strong intellectual tradition

from the revolutionary era to the postcolonial present and that Haitian thought is not homogeneous and monolithic Joseph puts forth the idea that the general interweaving themes of rhetoric the race concept race vindication universal emancipation religious pluralism secular humanism the particular and the universal and cosmopolitanism are representative of Haiti's intellectual tradition Secondly the book also contends that Haitian intellectuals have produced a religious discourse in the twentieth century that could be phrased religious metissage The religious ideas of these thinkers have been shaped by various forces ideologies religious traditions and philosophical schools In the same way the religious experience of the Haitian people should be understood in terms of conflicting heterodox and pluralistic manifestations of religious piety as the people in Haiti reacted to the crisis of slavery Western colonialism and imperialism and the arrogance of race in modernity in their striving to reposition themselves within the framework of universal and human metanarratives The book departs from the dominant contemporary Vodou scholarship that is often characteristic of North American and Western studies on the religious life of the Haitian people and Haitian thinkers

**Migration, Racism and Labor Exploitation in the World-System** Denis O'Hearn,Paul Ciccantell,2021-07-29 This book offers a historically sweeping yet detailed view of world systemic migration as a racialized process Since the early expansion of the world system the movement of people has been its central process Not only have managers of capital moved to direct profitable expansion they have also forced cajoled or encouraged workers to move in order to extract grow refi ne

manufacture and transport materials and commodities The book offers historical cases that show that migration introduces and deepens racial dominance in all zones of the world system This often forces indigenous and imported slaves or bonded labor to extract process and move raw materials Yet it also often creates a contradiction between capital s need to direct labor to where it enables profitability and the desires of large sections of dominant populations to keep subordinate people of color marginalized and separate Case studies reveal how core states are concurrently users and blockers of migrant labor Key examples are Mexican migrants in the United States both historically and in contemporary society The United States even promotes of an image of a society that welcomes the immigrant while policy realities often quite different Nonetheless the volume ends with a vision of a future whereby communities from below both activists and people simply following their communal interests can come together to create a society that overcomes racism Its final chapter is a hopeful call by Immanuel Wallerstein for people to make small changes that together can bring real about real revolutionary change

**Handbook of Psychology and Law** Dorothy K. Kagehiro, William S. Laufer, 2013-06-29 Shari Seidman Diamond Scholars interested in psychology and law are fond of claiming origins for psycholegal research that date back four score and three years ago to Hugo von Munsterberg's On the Witness Stand published in 1908 These early roots can mislead the casual observer about the history of psychology and law Vigorous and sustained research in the field is a recent phenomenon It is only 15 years since the first review of psychology and law appeared in the Annual Review of Psychology Tapp 1976 The following year saw the first issue of Law and Human Behavior the official publication of the American Psychology Law Society and now the journal of the American Psychological Association's Division of Psychology and Law Few psychology departments offered even a single course in psychology and law before 1973 while by 1982 14 of psychology graduate programs had at least one course and a number had begun to offer forensic minors and or joint J D Ph D programs Freeman Roesch see Chapter 28 Yet this short period of less than 20 years has seen a dramatic level of activity Its strengths and weaknesses excitements and disappointments are all captured in the collection of chapters published in this first Handbook of Psychology and Law In describing what we have learned about psychology and law the works included here also reveal the questions we have yet to answer and thus offer a blueprint for activities in the next 20 years

the book outlines how these hidden attitudes and prejudices can be revealed and measured and how they in turn predict behaviours in a number of important social situations Our Racist Heart takes a fresh look at our racial attitudes using new technology and experimental approaches to show how unconscious biases influence our everyday actions and thinking These groundbreaking results are brought to life using the author s own experiences of class and religious prejudice in Northern Ireland and are also discussed in relation to the history of race racism and social psychological theory
