 Lerner, 2012-12-06 Service learning as defined by the editors is the generation of knowledge that is of benefit to the
 community as a whole This seventh volume in the Outreach Scholarship book series contributes a unique discussion of how
 service learning functions as a critical cornerstone of outreach scholarship The sections and chapters of this book marshal
 evidence in support of the idea that undergraduate service learning infused throughout the curriculum and coupled with
 outreach scholarship is an integral means through which higher education can engage people and institutions of the
 communities of this nation in a manner that perpetuate civil society The editors through this series of models of service
 learning make a powerful argument for the necessity of engaged institutions Changing Governments in India and China
 Charles Bingman, 2016-11-11 The two most interesting governments in the world are those of India and China Together they
 control the lives and well being of 2.3 billion people Bingman's book analyzes their similarities and critical differences Both
 remain heavily linked to their farms and villages but in both the future is in the cities Bingman analyzes their new economic
 policies the rise of new middle classes and their disturbing inability to provide adequate social services Both are struggling
 with seriously flawed governments China remains a top down tyranny India's government is bottom up and wildly chaotic
