holds similar power Topics covered include auditory imagery and the neurology of sonic imagination aural hallucination and illusion use of metaphor in the recording studio the projection of acoustic imagination in architectural design and the design of sound artifacts for cinema and computer games      *The Bloomsbury Handbook of Music Production* Simon Zagorski-Thomas, Andrew Bourbon, 2020-02-06 The Bloomsbury Handbook of Music Production provides a detailed overview of current research on the production of mono and stereo recorded music The handbook consists of 33 chapters each written by leaders in the field of music production Examining the technologies and places of music production as well the broad range of practices organization recording desktop production post production and distribution this edited collection looks at production as it has developed around the world In addition rather than isolating issues such as gender race and sexuality in separate chapters these points are threaded throughout the entire text      *Let Me Be Frank* Bruce H.
